

Innovative Maximo Solutions to Meet Your Business Needs

Harness the power of IBM Maximo to meet your business needs with Interloc. 100% dedicated to helping clients realize the greatest potential from their IBM Maximo investment, Interloc provides a complete range of award winning services and innovative product solutions for Maximo.

Transform your business with a partner that has upheld quality best practices for a decade— that knows Maximo and your industry. Meet the goals of your business with integrity consultants that will exceed your expectations. Every project. Every day.

Recognized multiple times for our consulting services practice excellence and our innovative, next generation mobile products for IBM Maximo, Interloc is proud to have been named winner of three IBM Business Partner awards, finalist for three IBM Business Partner Awards, and finalist for three IBM Beacon awards.

“Partnering with Interloc ensured that our upgrade was a success — on time, on budget, and pain-free.”

Ravi Mlsra,
Chief Information Officer,
Bay Area Rapid Transit

Maximo Consulting — From implementations to integrations to upgrades – including the new Maximo 7.6 – Interloc brings real world experience to ensure success.

IBM Control Desk Consulting — IBM Maximo for your enterprise assets; IBM Control Desk (formerly known as SCCD) for your IT Assets – Interloc provides excellence helping you manage your entire asset inventory.

Business Transformation Services — Get the greatest return from your software investment with a partner who not only knows Maximo but knows how to make it actually work for you, your business and your industry.

24 x 7 LIVE Support— Local or global? Interloc’s Follow the Sun support lets you talk to experienced Maximo consultants when you need them — 24 hours a day, 7 days a week.

International Software Sales, Support, and Services— Whether you are across the street or around the world, Interloc can meet your Maximo needs.

Hosting Services — The choice is yours — on premise or secure hosting in the Cloud – with Interloc.

Technical Tools — Smarter consulting practices with tools that simplify repetitive or laborious parts of your Maximo project.

Purpose-Built Mobile Apps — Simple Mobile Informer apps that are enterprise-ready – run your business, your way.

"We have never had such complete acceptance of any new product!"

Dale Mann,
Group Lead Maintenance Management Systems,
Georgia Transmission Corporation

smarter mobility

Run your business your way with Interloc Mobile Informer. From OCR to Nearfield Communications and Fingerprint Detection to Redlining, Mobile Informer apps put you in complete control of your field workforce apps. Want to integrate the newest wearables for hands-free Maximo? Mobile Informer can do that.

reinvent mobility

Mobile Informer simple, purpose-built apps mirror field workers exact processes on the devices they want with performance they need — providing your business with 100% user acceptance. Mobile Informer can bring any Maximo process to your device, including GPS/GIS, RFID/barcode, ACM, linear and calibration.

native mobility

No additional servers to maintain; no connectivity worries. Get the native application that doesn't need middleware and is smart enough to

know when it is online but doesn't stop working when offline. Get the right data at the right time without interruption.

secure mobility

Interloc Mobile Informer provides MDM functionality and clearly differentiates between user roles — keeping both your business data and devices secure. Incorporate enhanced detection mechanisms (such as iris or retina scanning) for the highest level of security.

email mobility

Mobility is not just for the field. Our Interloc Mailer product makes your email inbox an extension of Maximo workflow actions from any mobile device. For the first time, an approver has all the details they need and the ability to take Maximo action from an email with a single click.
