Re: us Patent Number: 7,814,913
Title: CONDOM
Grant Date: October 19, 2010
Inventor: Brian Osterberg
Our Reference: OBJ-11203/16

Dear Mr. Osterberg:

We have received and are enclosing the original and two copies of United States Letters Patent No. 7,814,913 for the above-identified Patent issued October 19, 2010. We will proofread a copy of this patent to be sure that the Patent Office printed the patent correctly. If necessary, we will prepare and file a Certificate of Correction. Assuming all maintenance fees are timely paid, this patent is valid for twenty years from the filing date of the parent application, or until February 27, 2027. The term of this patent has been adjusted by 159 days due to a Patent Term Adjustment. Patent Term Adjustment is added to the term of a patent if the Patent Office causes delays during prosecution.

Maintenance fees for this patent will become due on the 3-1/2, 7-1/2, and 11-1/2 year anniversaries of the issue date of the patent. As a courtesy to you, we have placed these due dates in our follow up system to remind you at the appropriate times. It is accordingly of utmost importance that you notify our office of any address changes during the term of this patent. Our firm cannot accept responsibility for payment of fees unless your instructions and remittance are received in our office prior to the deadlines. If you receive an invoice regarding maintenance fees from anyone other than our firm, please contact us before responding. We are aware of several organizations sending solicitations for services that have the appearance of official government documents. These organizations provide very minimal services that may not adequately protect your rights. We are of the understanding that you will docket these dates and will advise your client in due time regarding their payments. If you would like us to be responsible for docketing and payment of these maintenance fees, please notify us in writing; otherwise, we will consider our files closed.

(57) **ABSTRACT**

A condom may include pouch having a wall and a frame. The pouch may have an open end and a closed end and the frame may be positioned proximate the open end. An anchoring device may be secured to the pouch proximate the closed end. Further, a harness or accessory attachment may be provided to assist in securing the condom to a user. At least one condom accessory, for stimulating at least one of the five senses, may also be positioned on or in at least one of the pouch, frame, anchor or harness using a variety of attachment methods.
