

FORMER FBI DEPUTY DIRECTOR JOINS PRAESCIENT ANALYTICS LLC'S BOARD

Alexandria, VA. April 7, 2015

Praescient Analytics LLC today announced that Timothy P. Murphy has been appointed as a member of its Board of Directors

Beginning his FBI career as a Special Agent, Tim Murphy rose to Deputy Director of the FBI, where he worked closely with Director Robert S. Mueller. Tim's previous roles at the Bureau include Associate Deputy Director (COO) and CFO. Currently, Tim serves as Vice President, Corporate Compliance at MacAndrews & Forbes Holdings Inc., a privately-held company.

At the FBI, Tim oversaw the operational and administration aspects of a workforce more than 35,000 strong, spread throughout 56 national offices and more than 60 international offices. This included all operational aspects of the FBI's Counterterrorism, Counterintelligence, Criminal, Cyber, and Intelligence Programs, as well as human resources, training, strategy management, facilities management, records management, security, financial management, information technology, inspection, internal audit, and leadership development.

"Tim has over two decades of law enforcement and investigatory expertise on matters of national importance gained through his extensive career with the Federal Bureau of Investigation and private industry," said Praescient Analytics' Chief Operating Officer, Yvonne Soto. "When combined with his substantial knowledge and his ability to harness and deploy state-of-the-art technologies and services to effectively solve the toughest problems, Tim is a great addition to Praescient's board as we continue to expand our business in both the public and private sectors and across many verticals, including the complex data analytical challenges in today's legal, cyber, and anti-money laundering investigations."
