

BlueFlame Global Wealth Management To Attend SkyBridge Alternatives (SALT) Conference in Las Vegas, May 5-8, 2015

April 30, 2015 – FOR IMMEDIATE RELEASE

SAN FRANCISCO: BlueFlame Global Wealth will be in attendance at the upcoming SkyBridge Alternatives (SALT) Conference in Las Vegas, Nevada. The global alternative investment forum will take place on May 5-8, 2015 at the Bellagio Resort and Casino in Las Vegas, Nevada. In its 7th year, the semi-annual SALT conference congregates over 1,800 of the world's most prominent and diverse minds. The forum brings together industry leaders in investment management, business, economics and public policy for four days of industry thought forums, facilitated debate and discussion, as well as unparalleled industry-focused networking.

The SALT Conference is a program focused on alternative thinking, with a vast magnitude of global leaders convening to discuss volatile financial markets, upcoming investment opportunities, monetary policies, geopolitical pressures, innovation, science and technology, among many other topics. Speakers include Sir Richard Branson, Michael J. Fox, General Keith B. Alexander, Mohamed El-Erian, and Condoleezza Rice, among many others. Platinum sponsors for the conference include BNP, State Street and Morgan Stanley.

The BlueFlame Wealth team welcomes the opportunity to meet with industry peers while at the conference. If you are interested in learning more about BlueFlame's innovative multi-strategy platform, please contact William Chong (WChong@BlueFlameWealth.com) to set up an in-person meeting.

ABOUT BLUEFLAME GLOBAL WEALTH MANAGEMENT

BlueFlame Global Wealth Management offers qualified and institutional investors a global multi-strategy alternative investment fund platform with a broad array of alternative investments from which to choose. BlueFlame investment strategies include hedge funds, private equity, venture capital, healthcare and medical device venture capital, oil and gas, niche/geographical real estate and film investments.

For select portfolio managers, BlueFlame represents a comprehensive solution through its existing institutional multi-strategy fund infrastructure, whereby alternative investment strategies can be added to the platform. BlueFlame maintains all of the necessary operational staff and infrastructure, along with handling all aspects of fund compliance and operations, investor relations, technology, global and cross-border marketing and distribution. It provides seasoned and credentialed portfolio management teams with the independence and autonomy as a portfolio manager of a completely separate fund product, while simultaneously operating as a part of a much larger institutional organization. Hedge fund managers can also migrate existing fund products onto the BlueFlame platform.
