

ROCKLER INTRODUCES TANDEM DOOR HINGE SETS

Unique Hinges Hold Two-layer Cabinet Doors for Increased Storage

MEDINA, MN (May 7, 2015) - Rockler Woodworking and Hardware has added Tandem Door Hinge Sets to its hardware selection. The sets contain hardware for a two-layer tandem cabinet door setup. The interior door is set back two inches from the exterior door, providing two layers of on-door storage for tools and supplies.

The two-layer door setup creates additional storage space where every inch counts in shops, craft rooms and garages. Using pegboard in the door panels effectively doubles the hanging storage capacity of cabinet doors and keeps items neatly organized.

"Tandem Door Hinges are a clever way to get more out of your space," says Steve Krohmer, Rockler's vice president of product marketing and strategy. "The ability to store more in cabinets without taking up additional wall space is invaluable."

One Tandem Door Hinge Set supports an outer door measuring up to 24"W x 36"H and a slightly smaller inner door. The hinges can easily be installed for either right or left doors. Each set includes two Rockler Tandem Hinges, two door pulls, two nylon stops, catch plate, pack of mounting screws, mounting template and a set of instructions.

Each Tandem Door Hinge Set (59882) is priced at \$24.99. They can be purchased at Rockler Woodworking and Hardware stores nationwide, Rockler.com, or from the Rockler catalog. For store locations or a free catalog, please visit www.rockler.com or call 1-877-ROCKLER.
