PGE Acquires Seasoned Financial Executive

Nabil May Appointed New CFO

WINTER SPRINGS, FLORIDA – May 11, 2015 – [Power Grid Engineering](#) (PGE) announced Nabil May is joining the leadership team as Chief Financial Officer and Vice President of Support Services. May oversees the Finance, Human Resources and Information Technology departments, and the Strategic Business Planning process at PGE. With more than 15 years of experience in financial management and commercial banking, May brings highly qualified financial leadership expertise to the PGE executive team.

"Nabil's valuable financial expertise and his relational culture fit will significantly contribute to the continued success of Power Grid Engineering. Nabil is an accomplished finance executive with significant banking expertise, including capital instruments, capital markets and treasury management," said Michael Wright, PGE president. "Nabil's broad business experience, which encompasses commercial financial instruments, financial analysis, and risk discovery and quantification, will be an asset to us as we focus on our highest-potential growth opportunities."

Prior to joining PGE, May most recently served as vice president with Regions Bank in Orlando, as Sr. vice president with Hancock Bank, and as a vice president with CNLBank. As a strong community supporter, May volunteers on the Board of the Orlando Florida Science Center. May also has a long-standing relationship with PGE management, having received his M.B.A. from Rollins College during the same time as Wright. May received his B.S. Finance degree from Florida State University's College of Business.

May said, "This is an exciting time to join Power Grid Engineering, as it is a tremendous opportunity. The company's highly successful growth, reputation and quality commitment within the Power Utility industry is unsurpassed among engineering design, services and consulting firms."
