Want to find out about technology that will revolutionize the analytics and CRO industry? Keep reading...

What really troubles website and online business owners?

If you ask any website or business owner about what their real problems are, they'll all tell you pretty much the same things. If you run a website, we're sure you can relate to some of these.

They get a lot of traffic on their website but they want **more conversions and sales**.

There are too many **drop-off points** in their purchase process.

They don't know how the changes they make to their website or product are **affecting their conversion**.

They don't understand how to really **leverage the analytics** they get from GA and other applications.

They want to know **why people are leaving** their website.

Conversion rates typically range from

Only about

22%

of businesses are satisfied with their conversion rates.

CRO and analytics are very important to businesses

But only 1 out of 5 companies are satisfied with the data from analytics.

2 out of 3 companies have hired senior talent in analytics.

68% of executives are committed to analytics

Usage of analytics as an analytics tool has gone up threefold since 2009.

50% say integration is a key challenge.

Half are concerned about the accuracy of the data.

6 out of 10 companies would partner with an outside resource for analytics.

What do people use CRO and analytics for?

What data sources are being used?

How are the current CRO tools working out for people?

There are a decent number of analytics and conversion optimization tools in the market right now and they all claim to solve the CRO and analytics problems.

The only problem is; **they don't really solve the problem.**

The starting prices for most of these tools put them **out of the budget range** of most business owners.

Even if you could afford it, not all of these tools offer integration with each other so you'd be running around trying to **manage all these different setups.**

If you want to use more than one CRO feature, you'd **have to buy different tools**, further adding to the already expensive monthly bill.

Did we mention the **cost of running the current CRO tools is astronomical?**

THE TRUCONVERSION MEDIA KIT

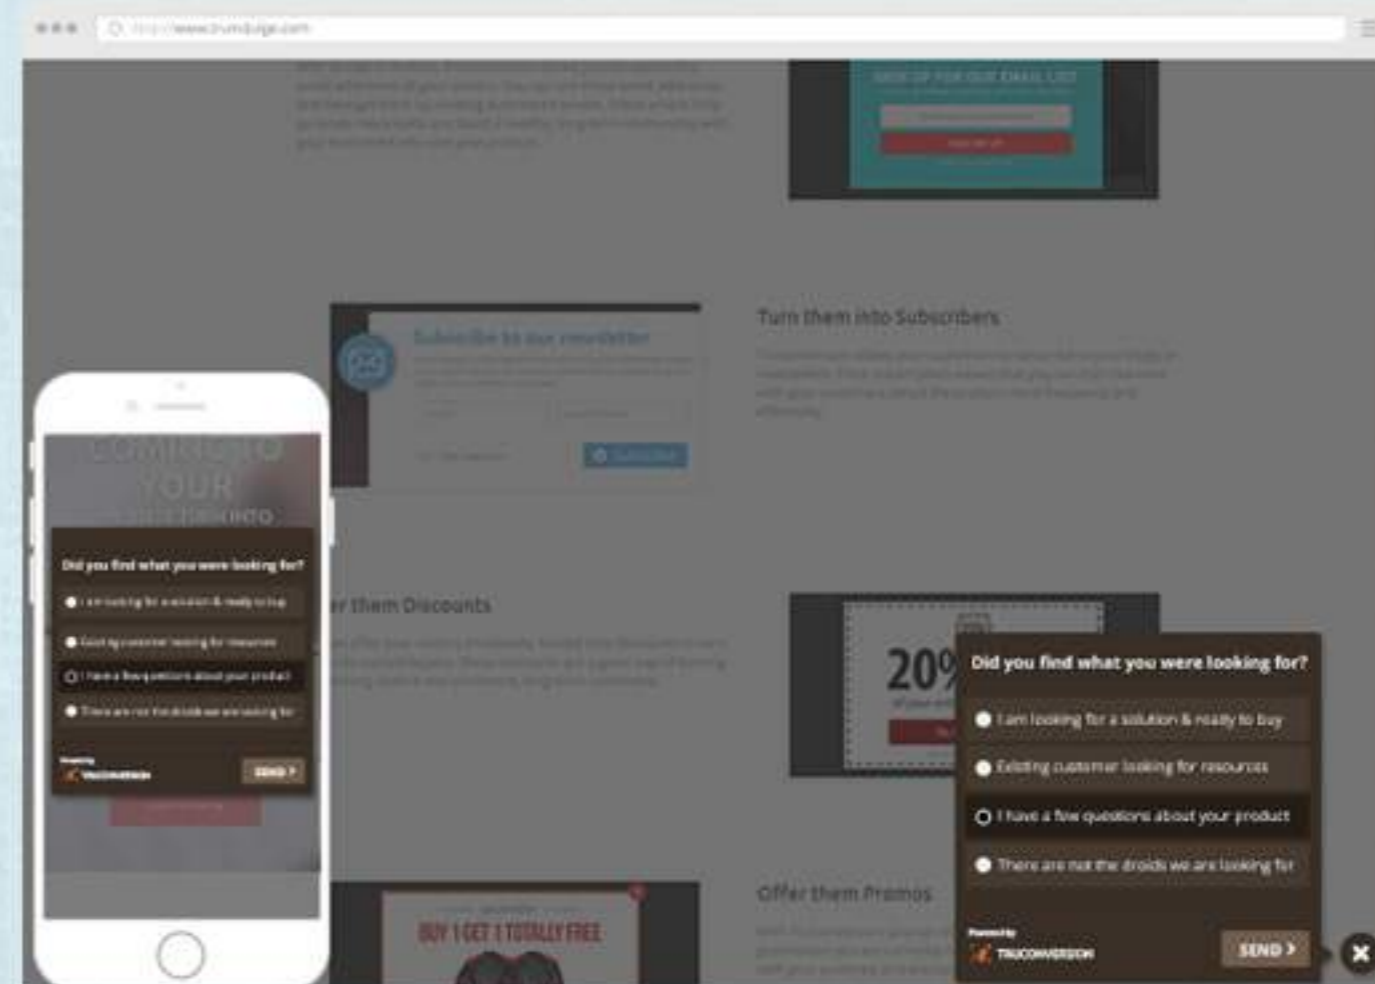

WHAT MAKES US SO SURE THAT TRUCONVERSION IS GOING TO CHANGE THE WAY THINGS ARE DONE?

HEATMAPS

Heatmaps let you optimize your website according to where visitors have been clicking and scrolling to the most and least frequently.

MICROSURVEYS

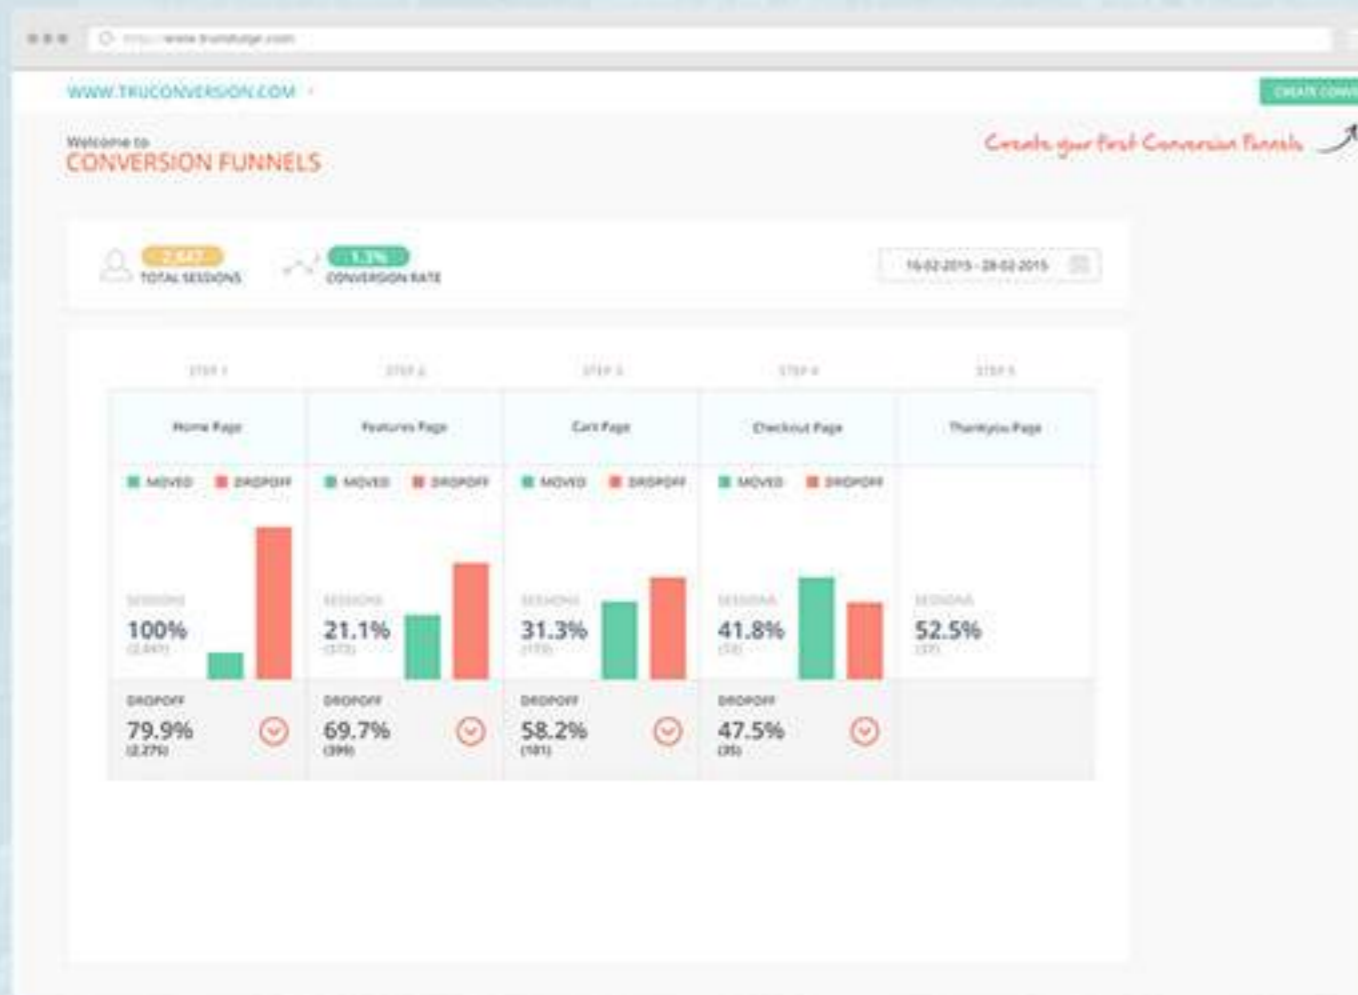

Microsurveys and polls give you quantitative data that helps you identify patterns and find useful information about your visitors.

Imagine being able to perform all of the major (and even some minor) CRO and analytics tests easily to increase your sales and boost your bottom line.

CONVERSION FUNNELS

Conversion funnels let you look at where they might be drop-offs in your purchase process and fix those problems to improve conversion.

CUSTOMER SURVEYS

The screenshot shows a 'Customer Survey' form with the following questions:

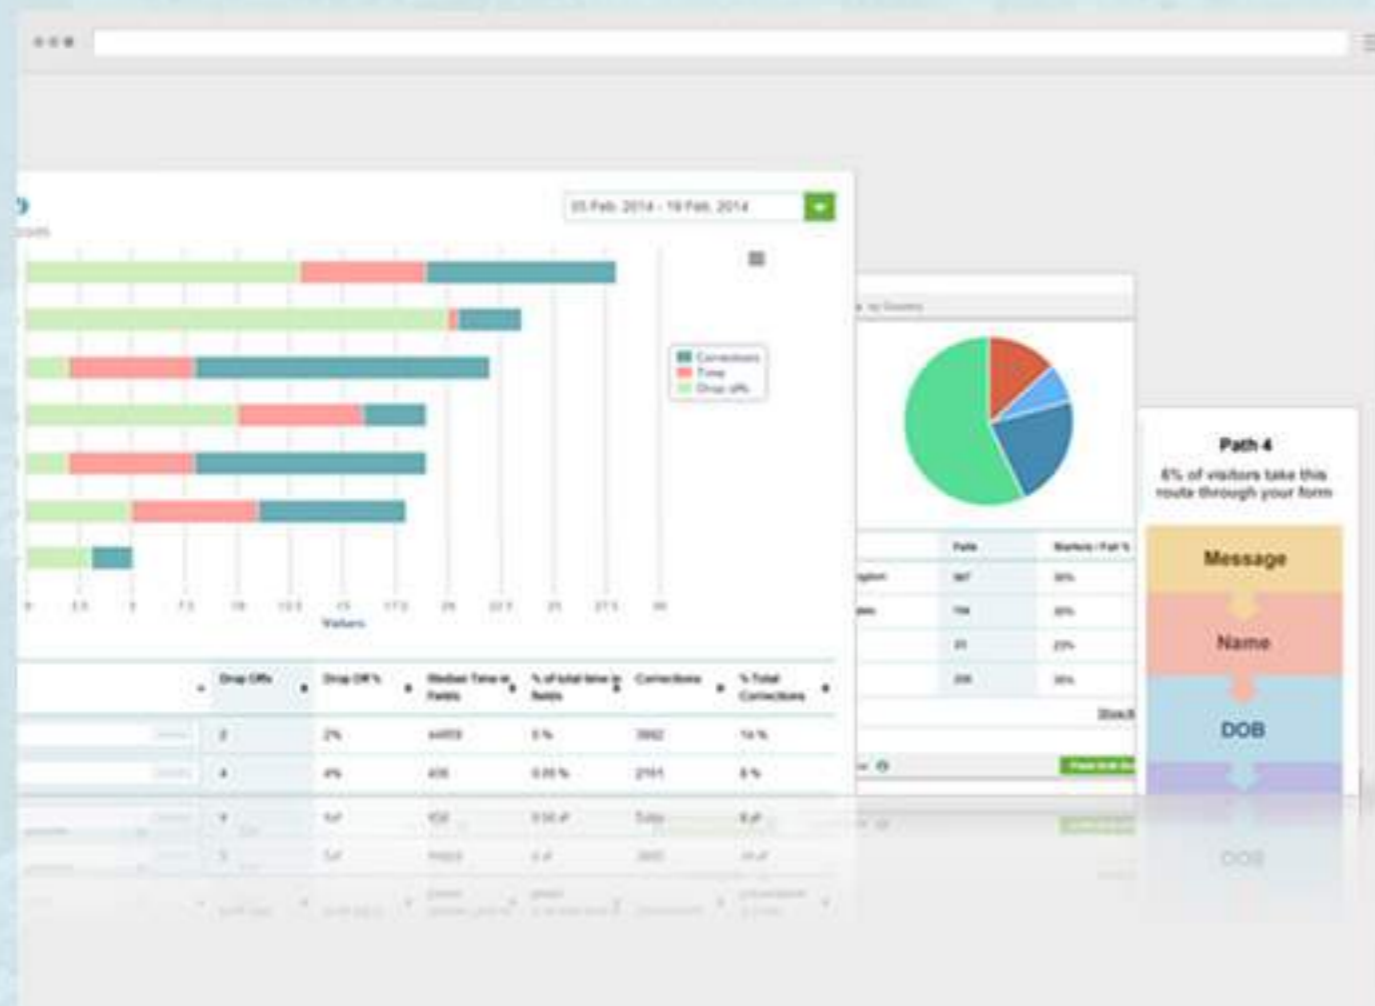

1. What kind of drummer are you?
 Professional
 Amateur
 Other (please specify)
2. Do you own a digital audio interface (USB/Firewire)?
 Yes
 No
 Not sure
3. If yes, how many powered mic pre-amps does it have?
 0
 1
 2
 3
 4
 5
 6
 More than 6
 N/A

Customer surveys teach you more about your customers and help you to get a better idea of what they value about your service or product and what they don't.

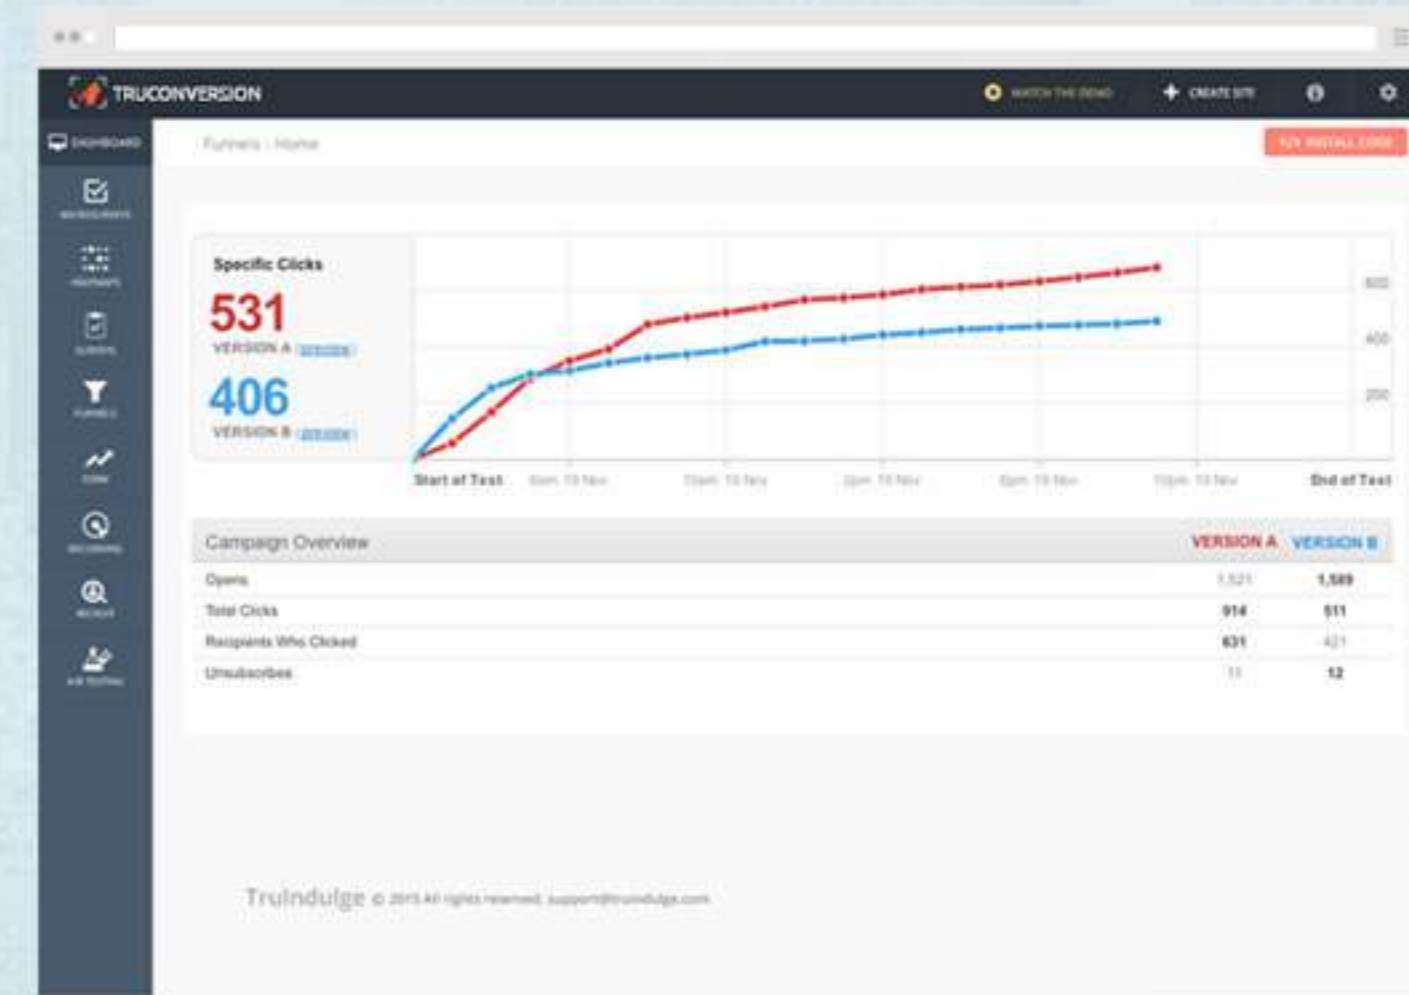

TruConversion gives you one simple dashboard to manage these powerful tools.

FORM ANALYTICS

Form analytics help you improve your form submission rates by giving you key metrics for each form field.

A/B TESTING

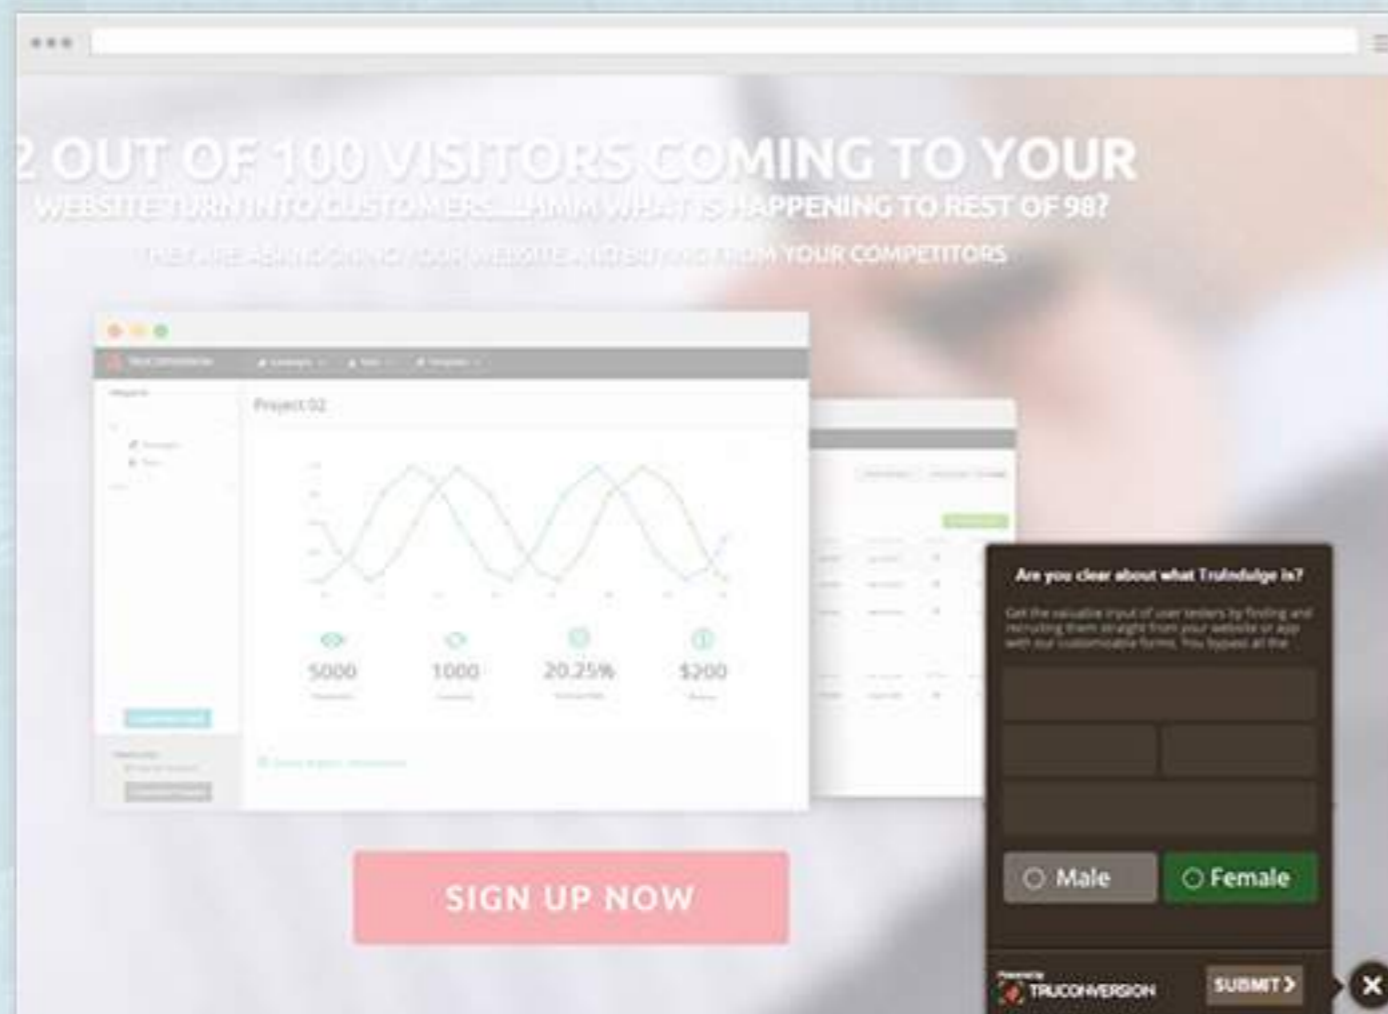

With A/B testing, you can use a simple editor to make changes to your website and look at their impact on conversion rates straight away. As they say, big changes lead to big wins.

Perform tests and look at all analytics reports without having to switch between applications

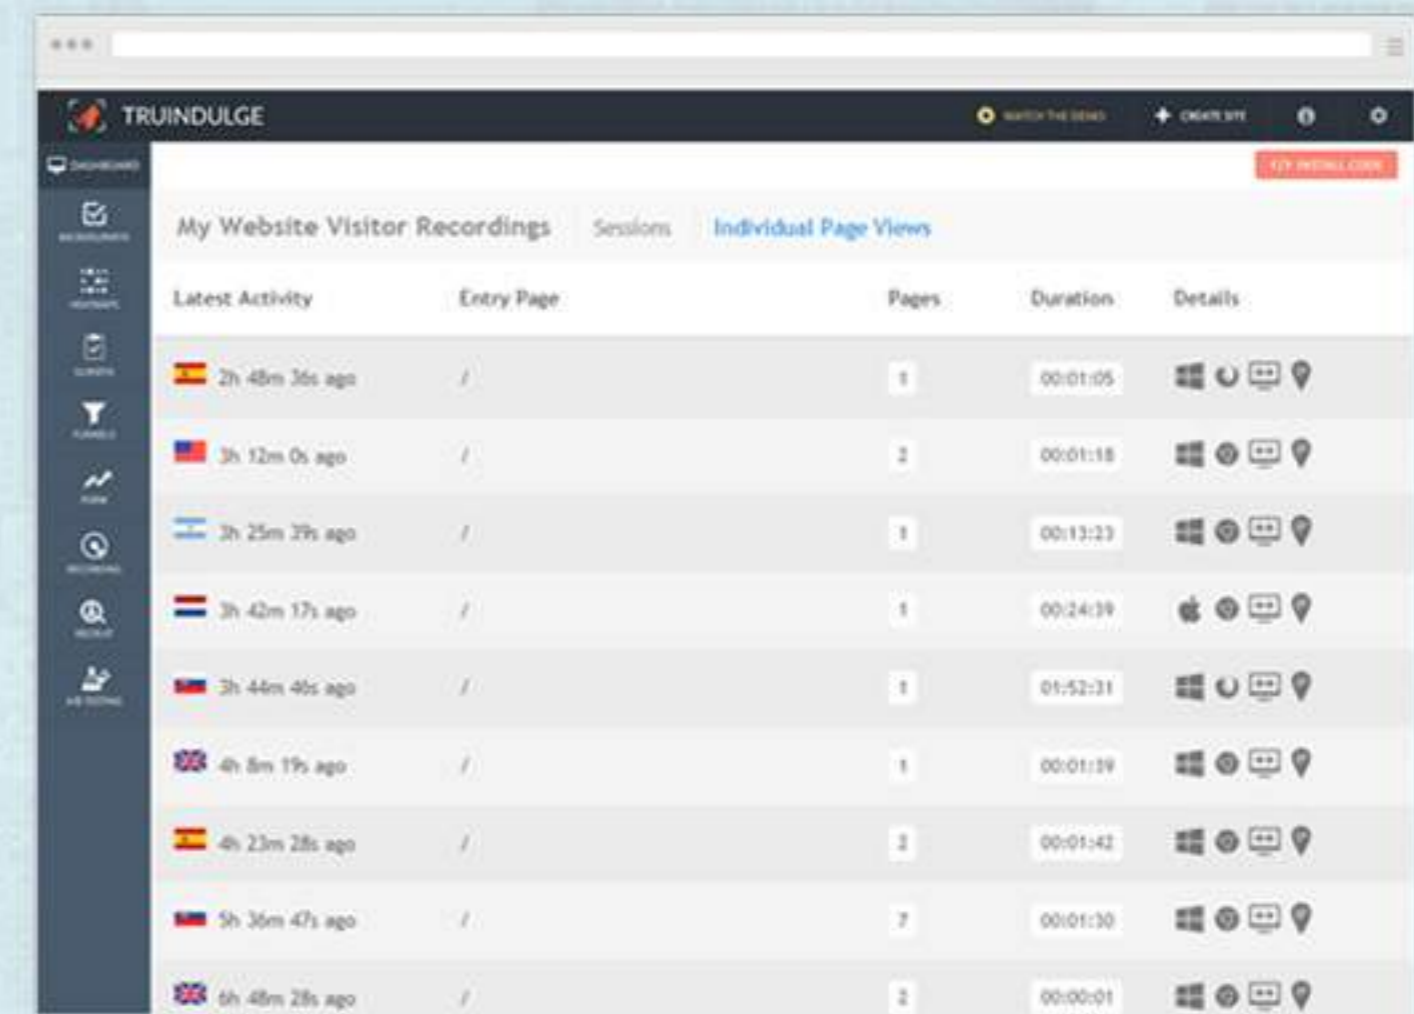

RECRUIT USER TESTERS

The screenshot shows a recruitment tool interface. At the top, there is a headline: "2 OUT OF 100 VISITORS COMING TO YOUR WEBSITE TURN INTO CUSTOMERS... WHAT IS HAPPENING TO REST OF 98? THEY ARE ASKING TO SWITCH TO YOUR WEBSITE AND SUFFERING FROM YOUR COMPETITORS". Below this, there is a graph showing a fluctuating line chart. To the right of the graph, there are four data points: 5000, 1000, 20.25%, and \$200. A prominent red button labeled "SIGN UP NOW" is positioned at the bottom center. On the right side, there is a dark overlay box with the text "Are you clear about what Truindulge is?" and a "SUBMIT" button.

You also get a tool that lets you recruit user testers. Makes it an effortless task to recruit beta testers or early adopters.

VISITOR RECORDINGS

The screenshot shows a dashboard for "TRUINDULGE" with a sidebar on the left containing various navigation icons. The main content area is titled "My Website Visitor Recordings" and includes tabs for "Sessions" and "Individual Page Views". Below the tabs is a table with the following columns: "Latest Activity", "Entry Page", "Pages", "Duration", and "Details".

Latest Activity	Entry Page	Pages	Duration	Details
