

The *Force* of the Whole

Full-Spectrum Extraction: Our Difference

Many companies isolate elements from an herb, concentrate them, and label it "whole herb." New Chapter delivers the wisdom of *whole food*. Using only natural supercritical CO₂ or traditional techniques of extraction, our *Force* extracts guarantee the fullest spectrum of beneficial phytonutrients in their natural profile.

Choice Whole Herbs

We select only the finest and most pure WHOLE herbs for our concentrated extracts. With Nature's whole herbs you get the whole spectrum of compounds found naturally in each herb, complete with all of Nature's wisdom. Time-tested botanicals such as [Cinnamon](#), [Ginger](#), and [Turmeric](#) are examples of whole herbs we extract to provide support for health and well-being.

Nature's Profile of Beneficial Compounds

We do not isolate out single ingredients or spike our extracts with synthesized additives. In this way, we are *Delivering the Wisdom of Nature* by preserving the herb's innate nuances, many of which are lost or discarded when herbs are fractionated or altered.
