

COMPANY OVERVIEW

Data Plus provides a complete enterprise level back office system that enables you to combine the data from the front of the house with a complete back office.

COLLECT

Property Management | Point-of-Sale
Time & Attendance | Spreadsheets
Banks | Spa Systems

Use over 175 interfaces to exchange data with your other systems

Import daily revenue from your PMS with market segmentation and statistics

Share with your POS item master data and sales for both Retail and Food & Beverage

Poll your Time and Attendance system to provide daily labor expenses

Use the Automated Clearing House to pay employees and vendors

Combine online data from your ePurchasing vendors

Integrate document management into your work flow

Interfaces can be batch or real-time HTNG-style using SOAP/XML

MANAGE

Accounting | Human Resources
Procurement

Store your transactional data in our rock-solid relational database

All imported data is subject to review and all transaction editing rules

Historical data can be maintained for virtually an unlimited time

One single database for seamless sharing by applications

Choose from our suite of ten integrated modules

Available as an installed system or as a service from our SSAE16-certified datacenter

VISUALIZE

DPAnalytics

One set of tools to access all of your information

Output your data as Excel Pivot Tables and Dashboards

Combine data from multiple sources including spreadsheets

Mix real financial data with budgets, forecasts and estimates

Output delivered as Excel, PDF, HTML on demand or by schedule

Alert reports delivered anywhere as needed

A single system for all of your data.
