# ELECTRONIC POLLBOOK

expresspoll®

THE FUTURE OF POLL PLACE VOTER MANAGEMENT NOW FITS IN YOUR HANDS.

The ExpressPoll® system gives election poll workers a simple-to-operate voter check-in device that slashes waiting time for voters, increases the accuracy of voters' personal information, and improves the Election Day experience for voters and poll workers alike.

Our popular electronic pollbook software, EZRoster, runs on low-cost touchscreen tablets using the Windows® operating system, giving poll workers an intuitive, easy-to-understand user interface that's similar to the devices they use in their everyday lives.

Gone are the days of many external peripheral devices needed to check in voters. Instead, devices such as a signature pad and barcode reader are built right in to each tablet, making the devices easy to use and set up. The ExpressPoll can also be integrated with multiple ballot tabulation devices to provide a complete voter check-in solution and ensure correct ballot style is issued.

BUILT-IN PERIPHERALS

Poll workers scan barcodes with the tablet's built-in camera and capture voters' signatures on the unit's touch screen, eliminating the hassle of extra cords connected to external peripherals and slashing costs. The end result is a device that's easy to set up and operate.
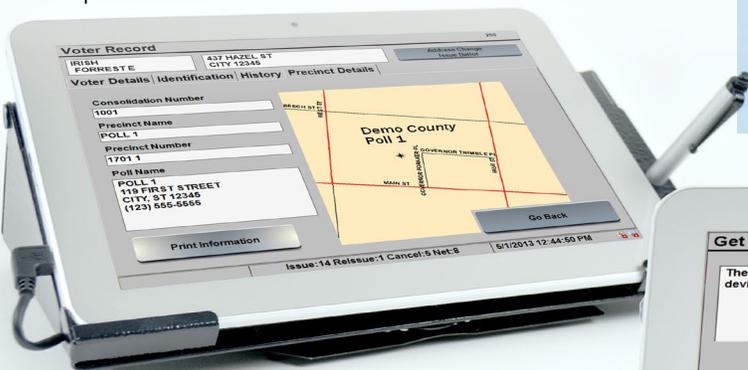

REDUNDANT DATA STORAGE

The ExpressPoll tablet offers "redundant" integral data storage, ensuring that voter validation information can be retrieved following each election. Data is stored in solid state internal memory and on a microSD card installed in the tablet. If one of these storage areas experience any issue, data can be easily retrieved from the other data storage location.

FASTER VOTER HISTORY UPLOADS

After an election, voter history is uploaded directly from the ExpressPoll unit, dramatically slashing upload times and enabling faster updates to the voter registration system.

WORKS WITH THE EXPRESSPOLL-5000®

Are you a current ExpressPoll-5000 customer? Our new ExpressPoll tablets can seamlessly be added to your existing system. Both solutions use the same EZRoster software, database and resource file to provide the same user experience.

SMALL AND LIGHT

Unlike laptop computers and older tablet technology, the ExpressPoll tablets are compact, light and easily transported and set up.

ROBUST EZROSTER SOFTWARE AND CONNECTIVITY

- Supports same-day registration
- Helps reduce provisional voting by providing up-to-date absentee status or directions to a voter's correct polling location
- Displays on screen instructions, giving poll workers information and the confidence to serve all voters
- Connects wirelessly using connectivity available in polling places to sync across all pollbooks, in all locations, securely

FULLY INTEGRATED SOLUTION

- Communicates seamlessly with our data conversion software
- Shares real-time data with our CentralPoint® web application, enabling Election Administrators to manage poll locations like never before
- Integrates with ExpressVote,® iVotronic,® Balotar,® AccuVote-TS,® and AccuVote-TSX® voting systems for a powerful election management system
