

DESCRIPTION

The **CBS ArcSafe® RRS-3 HK** allows technicians to remotely rack in or out the HK-style medium voltage power circuit breaker from a safe distance while remaining stationed outside of the arc-flash boundary. Installation and operation of the CBS ArcSafe RRS-3 HK is quick, simple, and does not require any modifications to the existing equipment. The CBS ArcSafe RRS-3 HK is compatible with all HK-style circuit breakers manufactured by ABB, BBC, or ITE with current ratings from 1,200–3,000A. The HK-style circuit breakers may typically be found in generation, chiller/HVAC, petrochemical, water/waste treatment, and pulp/paper applications. By automating the racking procedure, the CBS ArcSafe RRS-3 HK reduces operator fatigue and increases operator safety.

SPECIFICATIONS

WEIGHT:	32 lbs
DIMENSIONS:	20.5"H x 18.25"W x 20"D
POWER CONSUMPTION:	200W
OPERATING DISTANCE:	25-300 feet
COMPATIBILITY:	Type HK, 1200-3000A, 75-750MVA (Includes 5HK, 7.5HK, 15HK, not compatible with 1000MVA)
CONTROL/POWER SOURCE:	CBS ArcSafe® RSO-IV Control Console

OVERVIEW

- Remote operation from up to 300 feet away
- Lightweight and portable for hard-to-access areas
- Simple setup, no equipment modification required
- Quick installation and removal from gear
- Adjustable travel and locators to accommodate entire product line
- Reduces or eliminates need for arc-flash hazard suits
- Eliminates all hazardous manual contact with gear during operation
- Designed, manufactured, and assembled in the USA
