

Digital signage used to be boring. It wasn't much more than a slideshow with network connectivity. Then along came data aggregation, media widgets, news tickers, video clips, web media and MediaZone Pro. It has excelled at making digital signage what it ought to be, which is anything but boring. That's why today's MediaZone Pro offers the AVerMedia® full HD capture card option that inserts *HDMI, DVI, VGA or Component Video directly into your playlist in real time. Simply exciting!

HD VIDEO INPUT OPTION: PART # MXS-RM-YUV

AVerMedia

Live Stream HDMI, DVI, VGA and YUV Video Inputs

Two input connectors provide direct input for VGA and HDMI. DVI and Component (YUV) video are supported with supplied adaptors.

Supports HDMI Audio

HDMI input with audio is supported along with HDMI audio output.

Change Inputs On The Fly!

The capture card supports the ability to change the input and corresponding resolutions while broadcasting live.

Fully Integrated OEM Part

Keywest Tech engineered the integration of the AVerMedia OEM component into the MediaZone Pro platform for seamless use and no-hassle operation.

SPECS

- 1x VGA (includes D-sub component input cable)
- Supports up to 1080P resolution
- Auto-resolution detection
- 1x HDMI (includes DVI to HDMI adaptor)
