Physicians Family Health Service PC, Manhattan, New York Switches to iPatientCare EHR and integrated Practice Management & Patient Portal System

iPatientCare, Inc. Announces Physicians Family Health Service PC Migrating to iPatientCare EHR and integrated Practice Management after Rigorous Evaluation

Woodbridge, NJ, August 19, 2015 —iPatientCare, Inc., a pioneer in mHealth and cloud-based ambulatory EHR, Integrated Practice Management and Patient Engagement Solutions, today announced its selection as the EHR after rigorous evaluation from Physicians Family Health Service PC, Manhattan, New York.

iPatientCare is one of the most admired EHR among the physicians because of its ease-of-use, customizable workflow and templates, agile and prompt support, and very affordable to switch from any other EHR. Physicians Family Health Service PC, led by Gabriel Guardarramas, MD, and located in Manhattan's busy location, provides all range of family, occupational and integrative health services.

Switching from an EHR to another means costs, down-time and retraining of the practice staff. Dr. Guardarramas has been one of the early adopters of the EHR technology, and hence, had to have structured vocabulary implemented as part of the new EHR solution. Additionally, he required an integrated Practice Management and Patient Portal system. His search for an EHR which would help him deliver the best patient care ended when he evaluated iPatientCare.

"I was quite thrilled when I personally talked Dr. Guardarramas at a request from a business associate. He has been one of the pioneers and earliest adopter of EHR technology at his practice. In fact, this was one of the reasons for his high expectations and I am very happy to announce that he eventually decided to switch to iPatientCare. We look forward to making implementation of our unified system great success at Physicians Family Health Service PC, Manhattan." said Udayan Mandavia, CEO, iPatientCare.

"With the addition of iPatientCare, we'll be ready for a smoother running office for the years ahead." commented Gabriel Guardarramas, MD, Physicians Family Health Service PC, Manhattan, New York.

About iPatientCare:

iPatientCare, Inc. is a privately held medical informatics company based at Woodbridge, New Jersey. The company is known for its pioneering contribution to mHealth and Cloud based unified product suite that include Electronic Health/Medical Record and integrated Practice Management/Billing System, Patient Portal/PHR, Health Information Exchange (HIE), and mobile point-of-care solutions that serve the ambulatory, acute/sub acute, emergency and home health market segments.

iPatientCare EHR 2014 (2.0) has received 2014 Edition Ambulatory Complete EHR certification by ICSA Labs, an Office of the National Coordinator-Authorized Certification Body (ONC-ACB), in accordance with

the applicable eligible professional certification criteria adopted by the Secretary of Health and Human Services (HHS).

Full certification details can be found at ONC Certified Health IT Product List.

The ONC 2014 Edition criteria support both Stage 1 and 2 Meaningful Use measures required to qualify eligible providers and hospitals for funding under the American Recovery and Reinvestment Act (ARRA).

The company has won numerous awards for its EHR technology and is recognized as an innovator in the field, being a pioneer to offer an EHR technology on a handheld device, an innovative First Responder technology to the US Army for its Theatre Medical Information System, the first to offer a Cloud based EHR product. iPatientCare is recognized as one of the best EHR and Integrated PM System for small and medium sized physicians' offices; has been awarded most number of industry Awards; and has been recognized as a preferred/MU partner by numerous Regional Extension Centers (REC), hospitals/health systems, and academies.
