

iPatientCare Proudly Announces the Successful Implementation of Electronic Health Record (EHR) and Integrated Practice Management System (PMS) & Electronic Patient Portal (EPP) to Family medicine Practice, Centro de Salud Medico Duarte, Inc.

Family medicine, Centro de Salud Medico Duarte, Inc. Switches to iPatientCare EHR and Integrated Practice Management & Patient Portal System, Operating Smoother Healthcare Services.

Woodbridge, New Jersey, August 31, 2015 -- iPatientCare, Inc., a pioneer in mHealth and cloud-based ambulatory EHR, integrated [Practice Management](#) and Patient Engagement solutions, announces successful implementation of EHR and Integrated Practice Management & [Patient Portal System](#) declared to be operating even smoother delivering healthcare services.

After rigorous evaluation from Centro de Salud Medico Duarte, Inc. which is a family medicine practice, found iPatientCare EHR is the best fit option because of its ease-of-use, customizable workflow and templates, agile and prompt support, and affordability. Furthermore, iPatientCare stays up-to-date with constantly changing industry standards that help practices deliver the best patient care with peace of mind.

"It was a challenge for our practice to find a right solution and adapt with the new system. We were looking for a one stop solution that provides fully loaded features like practice management systems, lab interface, eRx, State immunization registry interface, various medical devices integration and much more. We were amazed to see that iPatientCare EHR provides flawless and smooth navigation that is suitable to our workflow which is similar to any Family Medicine Practice. It has a simple but effective layout" said Gloria Toledo, MD - Centro de Salud Medico Duarte, Inc.

"We stay resolved to comprehend the needs of the providers as far as the time limitations, and subsequently, has put vigorously into advancing keen programming projects that study the usage example of each and every supplier in a practice and helps them to improve their work process convey and smoother administration. We endeavor to accomplish mechanical headway for medical informatics that helps restorative frameworks work better" said Tejhas Vyass.

About iPatientCare

iPatientCare, Inc. is a privately held medical informatics company based at Woodbridge, New Jersey. The company is known for its pioneering contribution to mHealth and Cloud based unified product suite that include Electronic Health/Medical Record and integrated Practice Management/Billing System, Patient Portal/PHR, Health Information Exchange (HIE), and mobile point-of-care solutions that serve the ambulatory, acute/sub-acute, emergency and home health market segments.

iPatientCare EHR 2014 (2.0) has received 2014 Edition Ambulatory Complete EHR certification by [ICSA Labs](#), an Office of the National Coordinator-Authorized Certification Body (ONC-ACB), in accordance with the applicable eligible professional certification criteria adopted by the Secretary of Health and Human Services (HHS).

Full certification details can be found at [ONC Certified Health IT Product List](#).

The ONC 2014 Edition criteria support both Stage 1 and 2 Meaningful Use measures required to qualify eligible providers and hospitals for funding under the American Recovery and Reinvestment Act (ARRA).

The company has won numerous awards for its EHR technology and is recognized as an innovator in the field, being a pioneer to offer an EHR technology on a handheld device, an innovative First Responder technology to the US Army for its Theatre Medical Information System, the first to offer a Cloud based EHR product. iPatientCare is recognized as one of the best EHR and Integrated PM System for small and medium sized physicians' offices; has been awarded most number of industry Awards; and has been recognized as a preferred/MU partner by numerous Regional Extension Centers (REC), hospitals/health systems, and academies.
