

AONH Annual Natural Health Care Conference

“Motivated for Well-Being”

October 8-10, 2015, Douglasville, GA

Come to the 2015 AONH Annual event and enrich yourself with current information on natural health care, research, products and technologies. Would you like to:

- be an even more effective health care provider?
- address your well-being in every sense?
- learn how to motivate others to well-being?
- have more success in your practice and in your life?
- improve your own health?

If you have answered yes to any of the above then the 2015 AONH Conference is for you!

Your registration also grants you entry into our vendor pavillion where you can benefit from (in many cases) hands on appreciation of these new products and technologies.

Key Note Speakers

Dr. Tom O'Bryan
“Dietary Influences on Chronic and Autoimmune Disease”

Autoimmune disease is a top cause of morbidity and mortality in the industrialized world. Numerous autoimmune diseases have been associated with both humoral and cell-mediated immune responses to food intake. From migraines and ataxia, to congestive heart failure, chronic pancreatitis and primary biliary cirrhosis; in sensitive individuals, foods can initiate this response by upregulating macrophage pro-inflammatory gene expression, then cytokine production opening the ‘gateways’ in the development of autoimmune disease.

This presentation will review the immune response to ingestion of food in sensitive individuals and management using evidence based treatments.

Dr. Charles Richards
“The Psychology of Wealth: Understand Your Relationship with Money and Achieve Prosperity”

Some people feel a perpetual state of lack and fear about money, while other people feel genuinely prosperous, regardless of the size of their bank accounts. Some shudder with dread when it comes to setting financial goals, while others embrace it with enthusiasm and confidence. Which spectrum are you on and why does it make a difference? It's your relationship with money! In this seminar, Dr. Richards will show you how you can develop a thriving relationship with money and create a rich and rewarding life.

Some of the amazing speakers you'll enjoy

James Hawver, NMD **“Why Chronic Disease Reoccurs”**

Billions are spent every year getting people better. Why don't people STAY better? Why, despite such tremendous advances in health care, does chronic disease remain chronic? Again and again people fall victim to reoccurrences of conditions they were able to “beat back” for a time. Why do these reoccurrences happen so frequently? These questions and many more will be discussed in this comprehensive discussion by Veteran Naturopath and Educator, James Hawver.

Jeffrey Essen, NMD **“Natural Alternatives to Cope with Addiction Issues”**

Dr. Essen will discuss these burning questions related to addiction and the complex chemical system that feeds them: What if someone could replace the negative and destructive chemicals with something with no negative side effects? What if damaged cells could gradually be phased into a more balanced and non-addictive cell site percentage? What if positive and healthy molecules became the driving force of receptor activity? Are there things that can actually mimic the previous negative chemicals that have no destructive properties? The new frontier of addiction recovery is gaining both popularity and availability. You'll find it fascinating to consider.

Bunnie Gullick, Skin Care Expert **“Why Our Skin is So Important to Our Overall Health”**

A true example of inner and outer beauty, Bunnie Gulick is one of the country's most renowned natural skin-care educators. In this presentation you will learn about how to identify skin care ingredients that can do more harm than good. And, how to select products that are pure, clean and good for you! Bunnie is an inspiring example of daily living inner and outer radiance.

- “Addressing Energy and Metabolism Issues with Diet”-Dr. Ganji, Life University
- “Doctor's Panel”-Moderated by Camille Carlson, AONH Publicity Director, This is always one of the most popular presentations of the conference. *You will have opportunity to pose your questions to some of our learned speakers!*
- Event Master of Ceremonies, Dr. Sylva Dvorak, will bring her significant background in natural health care to play in her warm event facilitation.
