

IBM Maximo Enters the Age of IoT

Hosted, SaaS, or on premise. Using analytics to move from preventative maintenance to predictive maintenance to condition based maintenance. Instrumented, and connected devices such as wearables, drones and IoT devices. This is the new IBM Maximo. A Maximo that is at the heart of reliability that matters.

Interloc provides innovative solutions to make your business successful -- from mobility to wearables and drones to IoT devices 100% dedicated to helping you realize the greatest potential from your Maximo investment, Interloc harnesses Maximo to exceed your business needs.

Transform your business with a partner that has upheld quality best practices for more than a decade— that knows Maximo and your industry. Meet your business goals with consultants that exceed expectations. Every project. Every day.

Recognized for consulting services and innovative, mobile solutions, Interloc is proud to have been named winner of three IBM Business Partner awards, finalist for three IBM Business Partner Awards, and finalist for three IBM Beacon awards.

“Partnering with Interloc ensured that our upgrade was a success — on time, on budget, and pain-free.”

Ravi Mlsra,
Chief Information Officer,
Bay Area Rapid Transit

Maximo Consulting — From implementations to integrations to upgrades – including Maximo 7.6 – Interloc brings real world experience to ensure success.

IBM Control Desk Consulting — IBM Maximo for your enterprise assets; IBM Control Desk (formerly known as SCCD) for your IT Assets – Interloc provides excellence helping you manage your entire asset inventory.

Business Transformation Services — Get the greatest return from your software investment with a partner who not only knows Maximo but knows how to make it actually work for you, your business and your industry.

24 x 7 LIVE Support— Local or global? Interloc’s Follow the Sun support lets you talk to experienced Maximo consultants when you need them — 24 hours a day, 7 days a week.

International Software Sales, Support, and Services— Whether you are across the street or around the world, Interloc can meet your Maximo needs.

Hosting Services — The choice is yours — on premise or secure hosting in the Cloud – with Interloc.

Mobile Apps —Built on the Mobile Informer platform, Interloc offers turn-key, out-of-the-box apps, laser-focused industry apps and our flagship purpose-built app. Enterprise-ready, Maximo mobility on your terms – with 100% user acceptance.

Our Legacy

In 2011, Interloc introduced Mobile Informer – it was a game-changer in the market by addressing business processes and user needs. Sitting inside of Maximo and using IBM best practices of integration with the MIF, Mobile Informer let you mobilize any Maximo function, Industry Solution, Add-On or Customization. And because the apps were purpose-built and native to the device, clients gained 100% user acceptance. Mobile Informer gave clients a “future-proof” mobile solution. Mobile Informer is “version agnostic” when you upgrade Maximo. In 2012, Mobile Informer won Best of Show at IBM Pulse.

Flagship Purpose-Built Apps for mobility your way

The Present

In 2015, Interloc is once again a game-changer in the market. Building on the success of our flagship purpose-built, user-based apps, Interloc is releasing out-of-the-box mobile solutions. These include turn-key apps (e.g., InformerWM), self service apps (e.g., Informer311) and laser-focused industry solutions (e.g., Informer139). And because Mobile Informer native apps support multi-factor authentication like RSA and PIV-CAC cards, you get the highest level of security and the ability to provide innovative integration with drones, wearables, and instrumented devices. Perfect for the age of IoT.

Your Future

In October 2015, Mobile Informer Platform Authorized Users and Mobile Informer Industry App Authorized Users will be able to download all turn-key, out-of-the-box Mobile Informer Business Process Apps – for free. Mobile Informer Service Request App (Informer311) User Licenses will also be free. Moving forward, we will continually be releasing Mobile Informer turn-key, out-of-the-box apps and industry-platform apps alongside our flagship Informer purpose-built apps to meet all of your mobile needs. Welcome to the age of “continuous delivery” of Mobile Informer apps.

“We have never had such complete acceptance of any new product!”
