NOVATION INDUSTRIES provides comprehensive custom contract manufacturing services, including design, tooling, injection molding and assembly services. Our experience spans many industries and applications in specialty packaging, including consumer, industrial, food/beverage and medical markets.

Through our proprietary Integrated Development Process (IDP), we utilize cross functional teams to integrate the development process from concept to production – bringing innovation, production efficiencies and speed-to-market.

Packaging Solutions:

Caps, closures, containers, dispensers, lids, valves, pumps, packaging components

Packaging Segments:

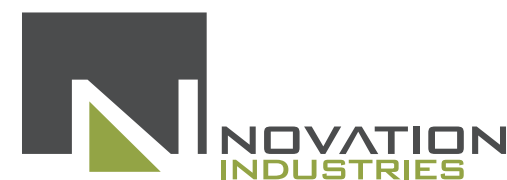

- Food, beverage
- Medical
- Industrial
- Home health
- Cosmetics
- Personal care
- Pharma
- Pet care
- Cleaning
- Home improvement
