DR. THOMAS CHACKO RECOGNIZED AMONG CASTLE CONNOLLY TOP DOCTORS® FOR THE ATLANTA, GA REGION IN 2015.

ATLANTA ALLERGIST ADDED TO ELITE ROSTER OF PEER RECOMMENDED NATIONWIDE SURVEY

Atlanta, GA, September 25, 2015– Castle Connolly Medical LTD., America’s trusted source for identifying Top Doctors, has chosen to add Atlanta Allergist Dr. Thomas Chacko to the prestigious list of Castle Connolly Top Doctors this year. This highly selective peer nomination process is open to all board certified MDs and Dos. Tens of thousands of doctors cast their vote each year to help consumers find the best healthcare providers possible. To even be considered for this award, strict criteria has to be met, including medical education, training, disciplinary histories, awards and more. Only 5% of the nation’s licensed physicians are selected as ‘Top Docs’ in their regions and specifically for their specialties. Being selected as one of the most respected doctors in Atlanta has truly been one of Dr. Chacko’s proudest accomplishments. Only a small percentage of doctors are featured in Atlanta Magazine for their ‘Top Doc’ status, so when Dr. Chacko he found out he was selected to be on the cover as a local preferred expert due to his reputation and experience, Dr. Chacko was both delighted and humbled. Doctors do not and cannot pay to be selected and profiled as Castle Connolly “Top Doctors”.

Dr. Chacko is known to be a pioneer in his industry. He’s thrilled to be one of the few allergist in the Southeast offering food oral desensitization, a way to help decrease patients sensitization to food they may be allergic to. What sets Dr. Chacko apart is his relentless quest to expand his skill and techniques, ensuring he has all the tools he needs to be able to offer his patients the type of superior quality care they deserve. This philosophy has earned him numerous accolades, including serving as an expert consultant for CNN, Fox News, Web MD, and Telemundo, repeated nominations as one of the youngest “Top Doctors” in Atlanta, frequent designations as “Top Doctor” by U.S. World & News Report, and annual accolades for “Patients Choice” and “The Most Compassionate Doctor” awards by Vitals.com. He has lectured both locally and flown nationally to lecture on asthma, allergies, food allergies and anaphylaxis. He is board certified in both pediatric and adult Allergy and Immunology considered one of the Atlanta’s experts on severe hay fever, sinus disease, food allergies and asthma.
