

You (just) Don't Have It

Verse 1

Work out all you want to
Look cute in your mirror
Wear something tight and new
When you're vying for my attention

You can be a supermodel
Or smart like a professor
Walk sexy no waddle
And be all zen master zen

But to me

Chorus 1

You (just) don't have it
That one thing that I fancy
That something that I want
That something that drives me crazy

Verse 2

So what you're great in bed
Don't care if you're high society
Or been on SNL instead
Rodeo drive don't impress me

Who cares how cool you think you are
Who cares about who you're hanging with
Don't care if you bought your own star
Or if you think you're the best

'Cuz to me

Chorus 2

You (just) don't have it
That one thing that I fancy
That something that I want
That something that drives me crazy

You (just) don't have it
That beautiful heart inside
It's exactly what I want
To make you mine, to make you mine tonight...

Bridge

*Whispering over there with your girlfriends
Flaunt your money you think I desire
Fancy clothes and a smile that's pretend
You'll never light my fire!*

Verse 3

What really drives me crazy
Is you being a humble human
Playful, not lazy
Sweet and nice with passionate eyes

If you don't fit that description
There's not a chance in the world
That a guy who's in my position
Would ever ever choose you

'Cuz to me

Chorus 3

You (just) don't have it
That one thing that I fancy
That something that I want
That something that drives me crazy

You (just) don't have it
That beautiful heart inside

It's exactly what I want
To make you mine, to make you mine tonight

Ending

If there's gonna be any chance for us
I don't want you caring 'bout a million bucks
If there's gonna be any chance for you
You gotta care about some other people too

If there's gonna be any chance for us
I don't want you caring 'bout a million bucks
If there's gonna be any chance for you
You gotta care about some other people too

You (just) don't have it

You gotta care about some other people too

You (just) don't have it
