

# XPLORER RFID TAG

Track your drill pipe... anywhere

## Xplorer Tag:

The world's first UHF RFID tag built to survive downhole

- Speed up order picking
- Improve shipping accuracy
- Optimize pipe location tracking
- Streamline field and shop inspections
- Automate the pipe tally process
- Know you are running the correct pipe

## RFID VALUE:

- Basis for accurate downhole pipe analytics
- Positive identification for the life of the pipe
- Promotes safer drilling operations
- Reduces downtime at the rig
- Cuts transportation costs
- Precise drill string schematics
