

**iPatientCare Announces Welcoming Migration Opportunities to ClinixMD Users and Reseller to iPatientCare at No Upfront Costs and Attractive Monthly Subscriptions**

**iPatientCare Offers to Welcome ClinixMD Users and Resellers at No Upfront Costs to Migrate to ICD-10 Ready, Awards-winning, Cloud-based EHR/PMS and Patient Engagement Suite**

**Woodbridge, NJ, October 15, 2015**, -- iPatientCare, Inc., a pioneer in mHealth and cloud-based ambulatory EHR and integrated Practice Management and Patient Engagement System, announced today a welcome offer to ClinixMD users and resellers for migrating to ICD-10 Ready, Awards-winning, Cloud-based, Certified Complete EHR and integrated Practice Management/Billing and Patient Portal System at no upfront costs.

As per the announcement made by ClinixMD on its website, <http://clinixmd.com/>, the company has made a decision to discontinue its EMR product and not to maintain its certification beyond the 2015 reporting year. It is very appreciative of the company to provide a replacement option on its website, however, that is not the only option ClinixMD users and resellers would have.

“We will ensure that ClinixMD users can continue to use their existing records by importing them into iPatientCare database at no cost and no loss of data. We also understand that the loss in productivity due to conversion from one product to another can negatively impact the practice for initial months, and hence, we offer ClinixMD users iPatientCare EHR subscription at no costs until January 31, 2016. Based on our track record of achieving such tasks for many customers, we are very confident to make this an open offer.”, said Udayan Mandavia, President and CEO, iPatientCare.

He further stated, “iPatientCare will not charge any additional fees to any ClinixMD customers than what is already announced and documented on its Website: <http://ipatientcare.com/ipatientcare-pricing-options/>. ClinixMD users may continue to work with their existing ClinixMD resellers. iPatientCare offers an excellent Channel Partner program and would be very happy to enroll existing ClinixMD resellers as iPatientcare Channel Partners. iPatientCare is one of the highly functional product providing easy-to-use point-and-tap interface, and hence, the learning curve for the users will be very flat compared to many other products available in the market.”

## **About iPatientCare**

iPatientCare, Inc. is a privately held medical informatics company based at Woodbridge, New Jersey. The company is known for its pioneering contribution to mHealth and Cloud based unified product suite that include Electronic Health/Medical Record and integrated Practice Management/Billing System, Patient Portal/PHR, Health Information Exchange (HIE), and mobile point-of-care solutions that serve the ambulatory, acute/sub acute, emergency and home health market segments.
