MDDV

Multipurpose Digital Data Viewer

Any page is a second away™

The 'Game Changer' IETM

MDDV (Multipurpose Digital Data Viewer) is a complete and modular, next generation IETM product.

MDDV was developed from the ground up to provide the *most effective* and *easy to use* solution for end-users.

- MDDV can be provided on the internet, over secure networks and on standalone laptops/tablets
- MDDV is built to provide future growth by integration with external data systems, integration with aircraft systems, automatically provide usage information and support latest IT technologies

True Zero-footprint

MDDV requires no installation, no maintenance, no updates
(also, no Java, Flash, plugins, extensions, or ActiveX are used or required).

Best Look and Feel

The MDDV user interface is clean and clear. It is customizable for various data types (i.e., Procedural, Troubleshooting, IPB/IPD, Checklists, Workcards, etc.)

Any page is a second away™

Any page or module, or link will open in MDDV in a second. If you find it hard to believe - ask for a demo. The size of the data and the number of links do not affect the performance - even very large data sets will be this responsive.

Full support for the full S1000D Functionality Matrix

Yes, MDDV can support any feature listed in the S1000D Functionality Matrix, for S1000D 4.0.1 and higher.
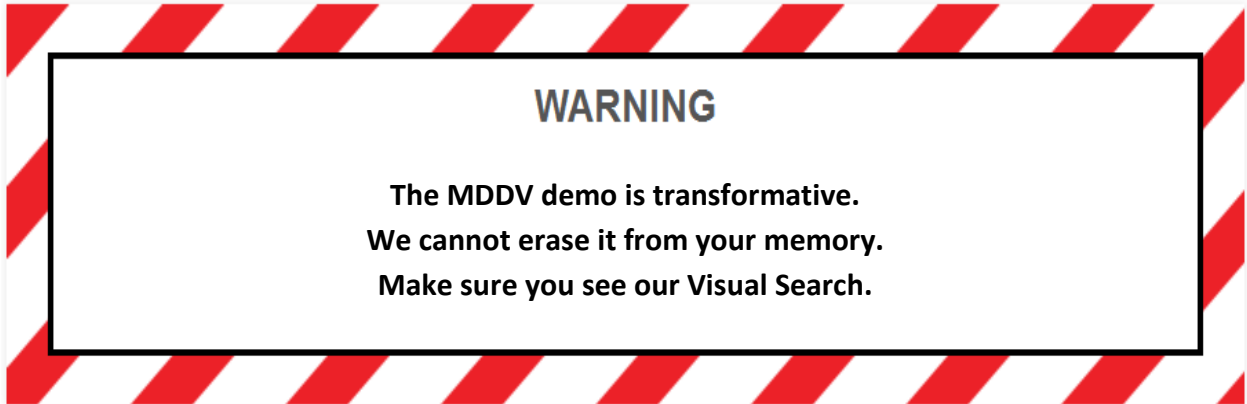

Certified for Air Force Network

MDDV version 10.x is certified as application software connected to the AF Network (AFNET) and AF SIPRNet and is placed on the AF Evaluated/Approved Products List.
