

TranscribeMe! Automated Speech Recognition

Highest accuracy speech recognition customized for you.

- ✔ Transcribe 100% of your audio and video with highly accurate, trained automated speech-to-text transcription for your specific use case.
- ✔ Data-mine your content for theme, sentiment, emotion and demographic analysis with best-in-class speech recognition.
- ✔ Use your data to train speech recognition output by utilizing our largest global network of specialized transcribers.
- ✔ Help your technology understand human voice with the TranscribeMe Cloud Speech service.
- ✔ Unlock the voice of your customer and measure the efficiency of your message within your call centres, sales team and marketing research.

What Makes Us The Best

Secure

Our distributed micro-tasking workflow ensures transcribers cannot see confidential information without proper clearance.

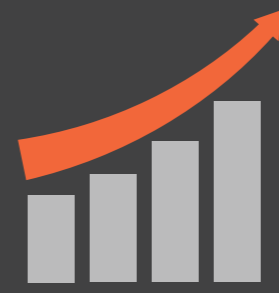

High Quality

Our proprietary multi-step review process ensures the highest level of accuracy and quality for your transcripts specifically.

Fast Turnaround

We ensure your transcripts are delivered on time to meet your project timeline. Our process scales to any level of urgency.

Scalable

Hundreds of thousands of domain-trained transcribers and translators ready to take on projects of any nature, at any scale.

Affordable

Our transcripts are cost-effective and flexible enough to meet your needs. Call us today for pricing information for your project.

Our Process

Step 1

Your Audio & Video

Submit in English, or any major European, Latin American or Asian language.

Step 2

Our Platform

Industry-leading proprietary speech recognition technologies and expert transcribers are utilized.

Step 3

Speech Recognition Complete

Final output received as speech-to-text or voice metadata (hot alerts, sentiment, demographics, etc.)

Step 4

Analytics and Metadata Available

Take the data to your existing analytics platform or we can perform the analysis for you.

Step 5

Understand Your Customer

Voice data will help you improve NPS, customer satisfaction, and more!
