

# SOUND + SLEEP™ MINI

## Setup Sheet

Product Name: **SOUND+SLEEP MINI**

Description: Sound Therapy System, Travel Size

Model #: ASM1014

UPC: 897392002152

Retail: \$79.95

### Web Description:

**SOUND+SLEEP MINI** offers 12 distinct categories with 48 unique sounds engineered to promote deeper sleep and relaxation. Able to run from AC, USB, or battery power, it is perfect for the traveler. Also with the line input jack the MINI can play music or audio from your laptop, tablet, smartphone, or MP3 player.

### Web Copy:

Sleep Better. No Prescription Necessary. The **SOUND+SLEEP MINI** redefines the science of sleep. Patented Adaptive Sound™ technology has the ability to continuously and automatically “listen” to your background for unwanted and disruptive ambient noise. In less than a tenth of a second, the MINI responds to intrusive noises by remixing sound profiles and adjusting volume to neutralize outside sounds

The value of a good night’s sleep, especially when traveling is priceless. Nearly half a billion people worldwide suffer from sleep disorders, spending an estimated \$16 billion annually on treatment. A leading consumer publication reports that sound machines proved almost as effective as sleeping pills. **SOUND+SLEEP MINI** is the perfect natural solution that will allow you to relax and replenish your mind and body—for less than one month of sleeping medication.

SOUND+SLEEP offers 12 distinct sound profile categories scientifically engineered to promote a deeper sleep, relaxation and renewal: Ocean, Rainfall, Meadow, Brook, Waterfall, and White Noise (White/Pink/Brown noises and Electric Fan). Unlike other “white noise” sound machines, SOUND+SLEEP MINI uses naturally recorded, high-definition sounds and do not loop

### Additional features include:

- Adaptive Sound™ listens and responds to your environment
- Small, sleek and stylish functional design
- Upward facing speakers for full room high-definition sound
- Display lights can be turned on or off for easy nighttime operation
- Sleep Timer can be set for gentle turn off in 30, 60, or 90 minutes or left on all night
- Sound Richness control for deeper more complex sound profiles
- Option to run off 4 AA batteries for long life and use while on the go
- Audio line out and in for listening via headphones or connecting your device
