

iPatientCare Partner Area51 Data Solutions to Provide the Best Cloud Support and Data Backup Services to Secure the Data of the Medical Practices Using iPatientCare Application.

iPatientCare, Inc. integrated with Area51 Data Solutions to Offer the Best In Class Cloud Support and Backup Services

Woodbridge, NJ, December 17, 2015 — iPatientCare, Inc., a pioneer in mHealth and cloud-based ambulatory EHR, Integrated Practice Management and Patient Engagement Solutions, announces the strategic partnership with Area51 Data Solutions to enhance the data security, support, and backup services of the medical practices using iPatientCare application.

Area 51 Data Solutions is an IT managed services and private cloud provider that specializes in single and multi-location medical practices. Cloud server hosting model offered is not only HIPAA compliant, but is much more cost effective. Along with this, Area 51 Data Solutions also provide unlimited helpdesk and remote support, backup/disaster recovery and 24/7/365 network monitoring. Integration with iPatientCare means now best data solutions available to all using best EHR application.

“iPatientCare is glad to welcome Area51 Data Solutions on board. Along with our focus on providing solutions far beyond than expectation of clients though continuous improvements, we also partner with industry leaders like Area51 Data Solutions in order to offer best user experience iPatientCare users.” said Pranav Patel, General Manager, iPatientCare.

“We see our integration with iPatientCare as a big leap toward placing HealthCare IT in it's strongest position ever in the industry.” said Craig Sutphin, Area51 Data Solutions. “While iPatientCare offers the best cloud-based EHR and unified products suite, Area 51 Data Solutions is dedicated to delivering proactive and preventative IT solutions, as well as IT support to meet all the technology needs for our clients.”

About iPatientCare

iPatientCare, Inc. is a privately held medical informatics company based at Woodbridge, New Jersey. The company is known for its pioneering contribution to mHealth and Cloud based unified product suite that include Electronic Health/Medical Record and integrated Practice Management/Billing System, Patient Portal/PHR, Health Information Exchange (HIE), and mobile point-of-care solutions that serve the ambulatory, acute/sub acute, emergency and home health market segments.
