AXEL announces new distribution for the United Kingdom and Ireland with GRP Solutions Ltd.

WOODSIDE, New York, USA – AXEL Plastics Research Laboratories, Inc., has appointed GRP Solutions Ltd as its new distributor for the United Kingdom and Ireland. The new distribution agreement takes effect as of January 15, 2016. GRP Solutions Ltd will technically support AXEL's complete line of internal and external mould release agents: MoldWiz®, XTEND®, CleanWiz® and PasteWiz®.

“We are very excited to work with the team at GRP Solutions,” said Jacob Axel, president of AXEL Plastics. “I believe they bring an exciting new dynamic to the UK Composites Industry. We look forward to servicing our existing customers through this channel and bringing our solutions to more businesses in the UK marketplace.”

About Axel Plastics Research Laboratories, Inc.

Axel Plastics Research Laboratories is a global leader in mould release agents, including mould releases, sealers, primers, cleaners and strippers. AXEL offers a full range of water-based and solvent-based internal, external and semi-permanent release systems for polyester, vinyl ester, epoxy, urethane and phenolic resins for all composite processes: carbon prepreg, open moulding, RTM, RTM Light, wet compression, infusion, casting, solid surface, filament winding, pultrusion, and SMC/BMC/DMC. Key customers include: automotive, residential and commercial building products manufacturers; pipe and wind blade manufacturers; military and commercial aerospace, trucks, and boat builders.
