

About CH-IV International

CH-IV, with offices near Baltimore, Maryland and in Houston, Texas, provides consulting services to LNG asset developers, regulators, facility owners, operators and lenders to ensure assets are designed, developed, constructed and operated safely and in accordance with codes, regulations, and project specific technical and commercial specifications.

The Company specializes in the provision of LNG engineering and consulting services to the global LNG sector including North America, Asia, Africa, Europe, the Pacific Rim and South America.

CH-IV has provided engineering and consulting services to the majority of US LNG export projects that sit before the Federal Energy Regulatory Commission (FERC) and is a technical leader in the design of bunkering systems for ships using LNG for engine fuel.

About Eagle LNG Partners

Eagle LNG Partners (Eagle LNG) is a wholly owned subsidiary of Ferus Natural Gas Fuels LP, building LNG infrastructure across the United States to supply clean-burning, competitively-priced fuel for the marine, remote power, rail, oil and gas, and trucking industries. In addition to this project, Eagle LNG is currently developing a second LNG project in Jacksonville, Florida to predominately serve domestic maritime LNG fueling markets. The company also owns LNG logistics assets that are currently supporting LNG piloting activities in other high horsepower industries throughout the country. Eagle LNG is based in Houston, Texas.
