

WHY CHOOSE JB PLASTICS

JB Plastics is committed to providing **"Total Plastics Solutions"** for our customers. Our goal is to manufacture superior products that meet or exceed our customer's expectations for quality, service and cost effectiveness.

We promote a company environment that embraces Creativity, Growth, and Participation. And we believe Continuous Education and Training are important for every member of our team.

Many factors must be taken into consideration when starting a new project. While everyone appreciates the importance of cost, other factors such as product life, manufacturability, and aesthetic appearance should also be considered before determining a course of action. At JB Plastics, we use our many years of combined Mold Making and Molding Experience to offer solutions that satisfy your requirements.

CAPABILITIES

JB Plastics prides itself on being your single source of contact in the development of your product. With our years of experience, talent and resources, we will bring your product from development to production to delivery, making sure that you receive a unique and marketable product without the run around from using various vendors.

We will partner with you in every step of the manufacturing process, ensuring a stress free experience for our customers.

Our Capabilities Include:

CUSTOM INJECTION MOLDING

From tool design and material selection, to final product production, we will be your partners through the entire process.

ENGINEERING

Our design engineers have 25+ years combined experience in product and mold design ensuring that your concept will be correctly designed for manufacturing.

CUSTOM TOOLING

JB Plastics has extensive tooling experience including designing and engineering solutions for simple open and shut tools to more complex molds with multiple cavities or movements.

SECONDARY OPERATIONS

We offer a variety of secondary operations that make us your one stop shop for all manufacturing needs.

FULFILLMENT

JB Plastics will not only manufacture your product but will be your partner in the entire fulfillment process. We will package, warehouse, ship and distribute your products worldwide.

Fulfillment Services include:

WAREHOUSING

Using modern warehousing processes we are able to maintain an inventory of your products and drop ship where necessary. You will always know when it is time to replenish inventories on your products.

DISTRIBUTION

JB Plastics delivers high quality, low cost, Truckload, Volume LTL and Intermodal Brokerage services. We provide professional, efficient and seamless freight management services that both reduce your transportation cost and improve the services we offer.

SHIPPING

To expedite your orders, JB Plastics offers pick and pack shipping, planned distribution and even real-time orders, increasing your efficiency. We offer both FedEx and UPS Worldship and will work to accommodate any shipping carrier you may choose.
