DataBank's North Dallas facility is located in the Northern Metroplex suburb of Richardson, TX. The area, known as the telecom technology corridor, boasts a number of very prominent technology companies and industry partners. The standalone 65,000 square foot facility was purpose-built to provide DataBank clientele with 100% uptime and features robust redundant power fed by an on-premise dedicated power substation. Secure perimeter fencing encompasses facility parking, loading docks, and all customer entrances. Leveraging our proprietary fiber-ring, DataBank's North Dallas clients will have full access to a robust suite of carriers that can be deployed in a variety of flexible and scalable options.

Key Features

DataBank's North Dallas facility offers clients a top-tier data center environment in a highly secure technology park setting.

- **North Dallas Location -** Richardson, TX – Strategically situated in the Technology Business Corridor
- **Robust Power -** 20 MW of on-site power in a completely redundant 2N Design
- **Large Footprint -** Over 40,000 square feet of raised-floor customer data center space
- **Redundant Cooling -** A highly-efficient dual loop system is backed by on-site water storage against utility interruptions
- **On-Site Power Generation -** Dedicated A & B diesel power generators back up each data hall independently
- **Carrier-Neutral Design -** Dual MMRs connected to our DBIX fiber ring offers high bandwidth access to top-tier network providers

Infrastructure Redundancy

Our North Dallas data center facility offers DataBank clients a top-tier data center with complete redundancy in power, cooling and network infrastructure.

- **Multi-MegaWatt utility feeds in a completely redundant 2N A/B configuration**
- **Dedicated on-site A/B power generation for each data hall**
- **Highly-efficient and redundant dual-loop cooling design with a large return-air plenum to vent dense compute deployments**
- **Diverse and secure telecom entries into DataBank's mirrored carrier-class MMRs (Meet-Me-Rooms)**
- **High-bandwidth carrier access from DataBank's DBIX redundant metro fiber-ring**

Security & Compliance

DataBank clients benefit from several layers of physical security, including 24/7/365 on-site security personnel. All DataBank facilities perform annual SSAE-16 and PCI-DSS audits, and will work with customers to provide any additional custom-layered security measures to meet their own PCI-DSS, HIPAA, FISMA, or other compliance requirements. DataBank's customer service is unparalleled and always available to address any concerns in an expedient and friendly manner. On-site support is available via remote hands, and all client requests are handled promptly.
