Rigaku will be in attendance at Pittcon 2016, exhibiting its benchtop XRD and XRF spectrometers at Booth #1318

February 24, 2016 – Tokyo, Japan. [Rigaku Corporation](#) is pleased to announce its attendance at the 66th annual Pittsburgh Conference on Analytical Chemistry and Applied Spectroscopy ([Pittcon 2016](#)), held Sunday, March 6, 2016 through Thursday, March 10, 2016 at the Georgia World Congress Center in Atlanta, GA USA.

Pittcon is the world's largest annual premier conference and exposition on laboratory science and attracts more than 16,000 attendees from industry, academia and government from over 90 countries.

Rigaku provides the world's most complete line of X-ray analytical instruments and will be exhibiting its diverse lines of X-ray diffraction (XRD) and X-ray fluorescence (XRF) instrumentation at the conference at Booth # 1318.

The Rigaku Group of Companies are world leaders in the fields of general X-ray diffraction, thin film analysis, X-ray fluorescence spectrometry, small angle X-ray scattering (SAXS), protein and small molecule X-ray crystallography, Raman spectroscopy, X-ray optics, semiconductor metrology, X-ray sources, computed tomography, nondestructive testing and thermal analysis.

About Rigaku

Since its inception in Japan in 1951, Rigaku has been at the forefront of analytical and industrial instrumentation technology. Rigaku and its subsidiaries form a global group focused on general-purpose analytical instrumentation and the life sciences. With hundreds of major innovations to their credit, Rigaku companies are world leaders in X-ray spectrometry, diffraction, and optics, as well as small molecule and protein crystallography and semiconductor metrology. Today, Rigaku employs over 1,100 people in the manufacturing and support of its analytical equipment, which is used in more than 70 countries around the world supporting research, development, and quality assurance activities. Throughout the world, Rigaku continuously promotes partnerships, dialog, and innovation within the global scientific and industrial communities.
