

Eleven Wireless Recognized Among 20 Most Promising Wireless Solution Providers 2016

FREMONT, CA- March 14, 2016 – Eleven, the leading hospitality technology provider, is proud to announce that it has been recognized among 20 Most Promising Wireless Solution Providers 2016 by CIOReview.

The annual list showcases the 20 Most Promising Wireless Solution Providers. The positioning is based on evaluation of Eleven Wireless' specialties in Hospitality, Cloud computing, guest services, hotel technology, HSIA, Wi-Fi, Digital Lobby, Hospitality Technology, Guest Experience and Conference Internet management. The shortlisted companies were then taken up by a distinguished panel comprising of CEOs, CIOs and VCs analysts including CIOReview editorial board.

"Eleven Wireless has been creating an edge in the field of wireless technologies and we are glad to showcase it this year due to its continuing excellence in delivering top-notch technology-driven solutions," said Jeevan George, Managing Editor, CIOReview.

"We are honored to be recognized by CIOReview as one of this year's top wireless providers. Since our inception in 2002, our platform has evolved into the industry's leading central authentication solution for managing and monetizing guest Wi-Fi," remarked Eleven CEO, Dan Meub, "As people rely more and more on their mobile devices to drive their experiences, especially outside of the home, the Eleven platform will become even more mission critical for hotels and beyond. Other industries like cruise lines, retail, and healthcare, also have a strong business need for a central authentication platform. We look forward to helping to shape the future of wireless."

About CIOReview

When it comes to identifying "The Best" in different areas of tech business, CIOReview seems to create a niche of its own. Through consultations and nominations with the industry leaders and thought experts, CIOReview constantly ventures and makes efforts to choose the most promising one in different domains of the tech business. About Eleven Wireless

Eleven is the foundation of the high-performance Internet experience demanded by today's connected guest generation. Flexible architecture and open APIs allow the ElevenOS platform to plug into existing infrastructure and allow for endless possibilities to drive guest engagement and revenue. Started in 2001 deploying hotel Wi-Fi networks, it has since grown into a powerful cloud-based guest Internet management platform, helping millions of guests stay connected each month at thousands of hotels, cruise ships and other guest-service venues.
