

[Nootie](#) has revealed its Glucosamine Chondroitin Dog Treats are now available for purchase on Amazon, so customers can easily purchase this joint pain, arthritis, and dysplasia relief product to benefit their pets. Each package includes 120 soft chew treats. Suited for consumption by any size or breed, glucosamine chondroitin for dogs is a non-diluted, safe supplement that protects against additional damage and has all-safe ingredients to support a healthy lifestyle.

The dog treats are unlike similar products in that all ingredients are full strength and get completely absorbed into the blood. Sodium chondroitin sulfate, methylsulfonylmethane, and hyaluronic acid are the main compounds, while the [glucosamine for dogs](#) supplement also has small amounts of flaxseed and fish oil, dried whey powder, glycerin, and other elements.

Instructions for proper dosages are featured on the container. The more a dog weighs, the more they get; for example a 5-10 pound dog should have ½ a chew daily in the first 4-6 weeks while dogs over 60 pounds should initially have three a day. After that, smaller dogs should have ½ a chew every other day and larger breeds can have one or two split over the course of a day to meet maintenance dosage needs.

Glucosamine Chondroitin Dog Treats are being sold on Amazon now for \$29.97. A lifetime warranty comes with the product at no extra cost. Customers therefore save even more as an alternative to overpriced, less effective, brands. They can also take advantage of Amazon gift cards, a Wishlist, free shipping, and one-click ordering.

[Glucosamine chondroitin for dogs](#) is available now and selling extremely fast.

About Nootie

Nootie distributes treats, shampoos, anti-itch sprays, fragrances, and wellness products for dogs of all breeds and sizes. Beginning with long-lasting, pleasantly scented shampoos, it now offers healthy, grain-free treats plus glucosamine chondroitin for aging dogs with arthritis and chronic pain. All of the company's products are made in the U.S.A.
