

About SuiteStory

SuiteStory - started by industry veterans - is dedicated to changing the way people book luxury hotel suites online. Unlike hundreds of third-party hotel booking websites, SuiteStory exclusively offers 4- and 5-star hotel suites - without the clutter of standard rooms. Our platform offers consumers an opportunity to upgrade to the next level of hotel stays through access to exclusive suites and unpublished promotions. A machine learning algorithm serves up the most relevant results.

With its tailored approach to travel, SuiteStory's customers can book suites with the exact features they desire quickly and conveniently. SuiteStory offers a daily inventory of over 10,000 suites, with hundreds of suites being added every day, reaching several hundred thousand by the end of this year. SuiteStory empowers hotels to sell more of their high-end rooms that often remain empty.
