

## **iPatientCare Announces Compass Chiropractic and Wellness Switching to iPatientCare EHR and Revenue Cycle Management Services**

### ***Compass Chiropractic and Wellness selects iPatientCare because of Chiropractic specialty-focused EHR and Revenue Cycle Enhancement Competencies***

**Stevens Point, WI**, April 14, 2016 — iPatientCare, a pioneer in cloud-based ambulatory EHR and Revenue Cycle Management services, announced yesterday its selection as the Chiropractic-focused EHR and complete Revenue Cycle Enhancement service provider by [Compass Chiropractic and Wellness](#), Stevens Point, WI.

[iPatientCare EHR](#) caters to most leading medical specialties and sub specialties. However, as part of its recent strategic growth plans, iPatientCare has been expanding its complete Revenue Cycle Management services which are focused on a select few specialties, such as, Cardiology, Pain Management, Internal Medicine, Orthopedics, and Chiropractic care in the US.

“I was very impressed with the intuitive user interface of iPatientCare EHR system and the way the program is designed. As a typical Chiropractor, I see a high volume of patients. iPatientCare’s clinical templates and outcomes measurement are the best features, and led me to decide to go with them. Additionally, I love to have my patients’ information on my fingertips through smart phone or tablet when I am out of my clinic.”, said Joel Becker, DC, Compass Chiropractic and Wellness.

Naturally, physicians looking to [switch from an EHR](#) look forward to options that are fully compliant to MU/PQRS/PCCC quality reporting, easy-to-use, secure and affordable. iPatientCare emerges as the winner almost every single time, and hence, has been one of the most respected name for the switch.

“We are very delighted to serve Compass Chiropractic and Wellness as our esteemed clients. This selection adds one more practice with Chiropractic specialty and signifies the trend of switching with ease to iPatientCare EHR for improved patient care and reduced costs. Together with Dr. Becker, Dr. Stiff and other colleagues at Compass, we look forward to creating a bright future for Chiropractic care within the United States.”, said Udayan Mandavia, CEO, iPatientCare.”

#### **About iPatientCare:**

iPatientCare, Inc. is a privately held medical informatics company based at Woodbridge, New Jersey. The company’s unified product suite includes Electronic Health/Medical Record and integrated Practice Management/Billing System, Patient Portal/PHR, Health Information Exchange (HIE), and Mobile Point-of-Care Solutions for both Ambulatory and Acute/Sub-acute market segments. iPatientCare has been recognized as a preferred MU partner by numerous Regional Extension Centers (REC), hospitals/health systems, and professional academies.

iPatientCare EHR 2014 (2.0) has received 2014 Edition Ambulatory Complete EHR certification by ICSA Labs, an Office of the National Coordinator-Authorized Certification Body (ONC-ACB), in accordance with the applicable eligible professional certification criteria adopted by the Secretary of Health and Human Services (HHS).

Full certification details can be found at [ONC Certified Health IT Product List](#).

The ONC 2014 Edition criteria support both Stage 1 and 2 Meaningful Use measures required to qualify eligible providers and hospitals for funding under the American Recovery and Reinvestment Act (ARRA).
