

iPatientCare is Proud to Announce a Launch of PQRs Registry Portal to Enhance Its PQRs Reporting Service

iPatientCare introduces PQRs Registry Portal to enhance its assistance to Physicians' Offices in avoiding payment adjustment by successfully Reporting to CMS through iPatientCare PQRs Registry.

Woodbridge, NJ, May 12, 2016 — iPatientCare, a pioneer in cloud-based ambulatory EHR and [Revenue Cycle Management services](#), glad to introduces PQRs Registry Portal to enhance its assistance and freedom of patient data management to Physicians' Offices that sequentially helps in avoiding payment adjustment by successfully reporting to CMS through iPatientCare [PQRs Registry](#).

Physician Quality Reporting System (PQRS) by CMS is a quality reporting program that uses both incentive payments (bonus) and payment adjustments (penalty) to encourage physicians to participate and submit quality information to CMS. Calendar year 2014 was the last year for a PQRS incentive. Beyond 2015, there is potential to obtain an incentive under the Physician Value Based Payment Modifier (VM) program.

iPatientCare has been one of the leading [CMS qualified registries](#) since 2014 and offers PQRS reporting service to users of iPatientCare EHR as well as non-iPatientCare EHR users including both, the eligible professionals and Group Practice Reporting Organizations (GPRO). iPatientCare's PQRS reporting service comprises both, advice from experts for selecting the right PQRS reporting method for serving patients the best and PQRs Portal, the online tool to collect and report quality data for the CMS PQRS program. The combination of PQRs Portal and advice from experts increase in successful [PQRS reporting](#) substantially.

"We have always been leading all quality reporting initiatives from CMS and other payers for many years. Participating in PQRS quality program has been one of our chosen endeavors, and iPatientCare makes it extremely easy and achievable through its intuitive EHR, MU/PQRS Dashboard, and also the CMS Qualified PQRs Registry. We are very happy with the excellent support and service provided by MU and PQRs team from iPatientCare to enable us to achieve our goal," said Gobind Garg, MD, Gobind Garg PLLC.

"We are proud to introduce iPatientCare PQRs Registry Portal that is an independent as well as extremely easy to use platform for direct data reporting. iPatientCare PQRs Portal has in-built facility for uploading data through documents which are then imported in our database automatically. With the purpose of helping EP and GPRO in understanding the reports and reporting to CMS we found this extremely useful and must have tool," said Arnaz Bharucha, Senior Technology Officer, iPatientCare.

About iPatientCare:

iPatientCare, Inc. is a privately held medical informatics company based at Woodbridge, New Jersey. The company's unified product suite includes Electronic Health/Medical Record and integrated Practice Management/Billing System, Patient Portal/PHR, Health Information Exchange (HIE), and Mobile Point-of-Care Solutions for both Ambulatory and Acute/Sub-acute market segments. iPatientCare has been recognized as a preferred MU partner by numerous Regional Extension Centers (REC), hospitals/health systems, and professional academies.
