CAT5 RESOURCES ANNOUNCES EXPANSION INTO PUERTO RICO AND THE CARIBBEAN

NEDERLAND, TEXAS: Cat5 Resources is pleased to announce expansion of operations to Puerto Rico and the surrounding region. Cat5 has assembled a group of industry professionals, as well as experienced tower, generator, HVAC, and civil and electrical technicians to manage and perform the day-to-day operations of the Caribbean branch.

Lee Garris, VP of Operations said "We are very excited about our growth and the capabilities of the team we have in place in Puerto Rico. Cat5 Resources Caribbean will provide services including Operations and Maintenance, Tower and Installation, Civil and Electrical, Disaster Recovery and Fueling, and Transportation and Logistics to general and enterprise businesses, with a focus on telecommunications, electrical distribution, and other critical infrastructures."

By expanding to Puerto Rico, Cat5 can provide customers with cost-saving solutions, easy management of projects and fast response times. Cat5 Resources Caribbean is committed to exceeding expectations by putting their customers' needs ahead of their own, giving their best effort all the time, and continually striving to improve processes and drive value to their customers.

Ricardo Ramos will serve as Director of Operations for Cat5 Resources Caribbean. Ricardo has many years' experience in the community and industry and is excited for this new venture. Ramos said "By having a physical presence in Puerto Rico, our team can provide immediate service to our customers' multi-faceted needs with local resources from one centralized place. Our team is equipped with the skills to perform construction, maintenance, and repairs with our main focus always being exceptional quality and safety."

ABOUT CAT5 RESOURCES, LLC: Based in Southeast Texas, Cat5 Resources is a small business diversified supplier of technical and operational services across the Southeast, Midwest, Southwest, Northeast, Puerto Rico, and United States Virgin Islands.
