What Our Happy Customers Say

I am very pleased with the availability of Cloudlims, and I am even happier with the reasonable price. Excellent product it works great for the price you can't beat it. Customer service support, excellent.

ALLIED RESEARCH SOCIETY

BioTracer is designed keeping in mind a biobanking environment. BioTracer's easy-to-use configuration modules helped us save costly customization and quickly come up to speed. I particularly liked the ability to set user defined fields, assigning user rights and creating samples and aliquots.
