## **Digiscribe New England Moves to Better & Bigger Facilities**

*New Office Opened May 9th, 2016*

**Norwood, MA – May 31, 2016** – [Digiscribe New England](#), provider of document scanning services, document management solutions and workflow automation software throughout New England, announces the move of their document conversion facility and administrative offices to a larger space in Norwood, located just outside of Boston, MA. The new facility allows the company to better serve their clients and meet the needs of their growing business.

Digiscribe New England's new office offers many advantages to their growing list of clients, including triple the production area for receiving and [scanning documents](#) and [mailroom scanning services](#). The layout is designed for enhanced workflow and high-volume turnaround with a larger administrative area for sales and technical support of document management and workflow automation software.

The new office will continue to provide massive processing capability, state-of-the-art IT infrastructure and enhanced security. The new facility has an advanced technical infrastructure including a network infrastructure set up for zero points of failure, automated backup once an hour with replication to an offsite disaster recovery location and all application servers have fail-over capability.

"This move fits in with our accelerated growth goal by providing high-quality document scanning, mailroom scanning and [business process automation services](#) backed by superior customer service to companies throughout New England," said Mitch Taube, Digiscribe President.

Effective May 9th, 2016, Digiscribe New England will be operating out of their new location at 1400 Providence Highway, Suite 3150, Norwood, MA 02062.

---

### **About Digiscribe**

Digiscribe transforms the way companies, non-profits, and government agencies receive, process and manage their documents with business process automation. We offer a portfolio of services and software including mailroom scanning, workflow automation, cloud document management software and document scanning to help companies reduce costs while increasing efficiency, security and compliance. Our New York office is one of the first SOC 2 Type 2 document conversion centers in the tri-state area, and our New England office is a Massachusetts Privacy Law compliant

facility. Both offer award winning technical support and customer service, more than 25 years of experience and a HIPPA compliance trained staff.
