LynnCo Awarded Global Trade Magazine's Top 3PL for Software

Global Trade Magazine has recognized LynnCo Supply Chain Solutions as one of America's top third party logistics providers for the fourth year in a row.

Tulsa, OK: Global Trade Magazine has recognized LynnCo Supply Chain Solutions, a leading supply chain firm headquartered in Tulsa, Oklahoma, as one of America's Top 3PL's for Software.

The Global Trade Magazine Leading 3PLs issue is developed based on research conducted by the magazine's editors. The editorial picks are unsolicited and identify core strengths within leading supply chain companies in the U.S. The issue recognizes companies that are able to give their clients an advantage through logistics software that streamlines various aspects of their supply chain.

Over the last ten years, LynnCo proprietary SuiteEdge™ software platform has evolved from an activity-based, transportation reporting system into an intelligent supply chain enterprise system. SuiteEdge™ today is designed to drive processes and decisions that comply with supply chain performance and cost saving strategies unique to each of LynnCo's clients while serving up vast amounts of data into a highly visual representation of actionable information. LynnCo's successful deployment of this distinctive and proprietary software has yet again won it a spot on the top 10 list.

President Wendy Buxton says, "LynnCo is honored to be recognized as a Top 10 3PL for innovative technology. SuiteEdge™ is highly intuitive and converts complex data into visual information that is easy to understand and we are pleased that the software continues to lead the industry standard."

This is the fourth year in a row that LynnCo has been awarded a Top 10 recognition by Global Trade Magazine. LynnCo has annually ranked among top providers in various publications and associations both nationally and locally.

About LynnCo Supply Chain Solutions: LynnCo Supply Chain Solutions is a firm that provides solutions through engineering and optimization of complex supply chains based in Tulsa, OK. Founded in 2000, LynnCo provides solutions through engineering and optimization of complex supply chains.
