

iPatientCare Embraced It's Biannual Meeting iHEAR to Celebrate its half yearly Achievements and Plan for the Rest of 2016

iPatientCare celebrated its achievements of being honored by IHE and HIMSS as one of the Health IT Industry Leader, being named as a Qualified PQRS Registry for Year 2016 by CMS, and earning a White Coat of Quality Award by Surescripts

Woodbridge, NJ, June 14, 2016 — [iPatientCare](#), a pioneer in cloud-based ambulatory EHR and Revenue Cycle Management services, held its biannual meeting “iPatientCare Half-yearly Engagements, Achievements, and Roadmap” (iHEAR), which was attended by its Directors, Investors, Value Added Resellers and other key stakeholders. A series of iHEAR meetings have been scheduled twice a year, where iPatientCare’s key members and partners meet to discuss about their present engagements and achievements during the last six months and prepare the roadmap for the upcoming six months and beyond.

The key achievements during the first half of 2016 included [iPatientCare being honored by IHE and HIMSS](#) as one of the Health IT Industry Leader at IHE NA Connectathon Leadership Conference on January 27, 2016 at Cleveland, Ohio. HIMSS and IHE understands the challenges faced by the healthcare providers in connectivity among disparate EHR Systems and Health Information exchanges (HIEs) and hence decides the interoperability thresholds that are higher than those defined by Meaningful certification. iPatientCare, after its rigorous testing to technical specifications, was named with such an award.

Another big and important achievement was iPatientCare again Named as a [Qualified PQRS Registry for Year 2016 by CMS](#) for the third time in a row. Hence all Nationwide practices will be able to avail the iPatientCare PQRS Reporting services to Report the Healthcare Quality Measures for the year 2016 to the CMS. Also, iPatientCare announced its significant achievement of helping numerous physicians’ offices and eligible providers in reporting 2015 quality data through its [qualified PQRS Registry](#).

Additionally, in April 2016, Surescripts awarded iPatientCare EHR with the prestigious [2015 White Coat of Quality Award](#). iPatientCare e-prescribing system is carefully designed to provide greatest care quality and patient safety at the best possible quality standards.

Moreover, [iPatientCare released the “new” Patient Portal](#) as part of its comprehensive Patient Engagement Suite which got tremendous reception and recognition at the recent HIMSS16 at Vegas. The new release of Patient Portal has been designed to focus on new generation of consumers who need to be actively engaged in their health and care and ensure Meaningful Use compliance of iPatientCare EHR users.

Kedar Mehta, Chief Technology Officer of iPatientCare, strongly said, "iPatientCare team is flying up with the perfection and the quality at such a pace which not only justifies the needs of iPatientCare users but also exceeds their expectations! We feel that our software development team is a true asset for the iPatientCare organization. They have always followed the highest quality standards and come up with the best innovation which helps iPatientCare in contributing the best healthcare IT Products and Services to the industry and earn such awards and certifications. Our plans for upcoming months are well set and iPatientCare will continue to deliver services/solutions that will help its users with better outcomes at reduced costs."

About iPatientCare:

iPatientCare, Inc. is a privately held medical informatics company based at Woodbridge, New Jersey. The company's unified product suite includes Electronic Health/Medical Record and integrated Practice Management/Billing System, Patient Portal/PHR, Health Information Exchange (HIE), and Mobile Point-of-Care Solutions for both Ambulatory and Acute/Sub-acute market segments. iPatientCare has been recognized as a preferred MU partner by numerous Regional Extension Centers (REC), hospitals/health systems, and professional academies.

iPatientCare EHR 2014 (2.0) has received 2014 Edition Ambulatory Complete EHR certification by ICSA Labs, an Office of the National Coordinator-Authorized Certification Body (ONC-ACB), in accordance with the applicable eligible professional certification criteria adopted by the Secretary of Health and Human Services (HHS).

Full certification details can be found at [ONC Certified Health IT Product List](#).

The ONC 2014 Edition criteria support both Stage 1 and 2 Meaningful Use measures required to qualify eligible providers and hospitals for funding under the American Recovery and Reinvestment Act (ARRA).
