

## YOUR SCHOOL'S COMPLETE COMMUNICATION SOLUTION

Campus Eye is an interactive communication tool that gives your students, faculty and staff a direct line of communication to school administrators that is so easy to use that everyone becomes invested in and responsible for contributing to school safety, facilities and operational efficiencies.

- SEE IT:** Students, faculty and staff observe a safety, facilities or maintenance issue.
- REPORT IT:** Students, faculty and staff create & send reports using technology they use everyday.
- FIX IT:** School administrators view reports, take action and track progress until resolution.

### THE MOBILE APP

- iOS & Android mobile apps for mobile phones & tablets branded for each client
- Create reports – take pictures – describe incident – send reports anonymously if desired
- My Reports lets each student, faculty or staff member view the status of the reports they send
- My Alerts lets employees view push notifications & status updates sent by school administrators

### THE DASHBOARD

- Customize the Dashboard with report categories and school departments or campus locations
- Set personal preferences on receiving reports via email and/or push notifications
- Establish key leadership contacts to escalate reports immediately when necessary
- Manage all mobile app & admin users – set user type & department – suspend if necessary
- View all report details at a glance – location, geo-tagged picture, description, time & date
- Update report information by assigning a category, department, report status & comments
- Act immediately – forward, share or escalate reports to employees, departments & leadership
- Alert employees using the “Send Alert” function – one person, a department or entire company
- Filter report history and create reports in PDF or export to a CSV file
