

Mindful Embraces Wurk's Payroll and Human Resource Technology Platform

Sophisticated HR and Payroll Tools Streamline Compliance Processes for Cannabis Industry Leader

Denver, Colorado—Tuesday, June 28, 2016—Wurk—the only complete payroll and HR platform serving the cannabis industry, and Mindful—the industry leader for hand-crafted recreational and medicinal cannabis, today announced their partnership to provide Wurk's entire platform to Mindful's entire team. Wurk extends Mindful's brand promise of 'doing well by doing good' through to their HR processes and employees.

"By streamlining our time clocks and payroll, Wurk has offered immediate efficiencies to our employee management teams, which has a combined 50 years experience," said Mindful CEO Meg Sanders. "Multi-user access for administrators has also been a huge help. Through Wurk, we are able to offer our team members desktop and mobile access to their time clock, pay statements and W-2's."

Over the last couple of years, Mindful tried several different payroll and HR solutions. Due to the lack of functionality and features, those solutions left much to be desired. With expansion into multiple states scalability became a priority to meet their rapid growth.

Wurk provides Mindful the full suite of payroll and HR solutions designed specifically for the special compliance needs of today's cannabis business owner. Wurk's technology platform succinctly and easily ties together HR Management processes including:

- Streamlined recruitment and hiring
- Automated onboarding and ACA compliance
- Enabled labor costing (280e management)
- Scheduling and tracking employee time

- Error-proof payroll and taxes
- National scalability

“We are thrilled to work with a business solutions company that understands our need for bandwidth and efficiencies,” shared Sanders. “They are setting a high standard for the Cannabis industry.”

“Mindful is an industry leader with deep human resources experience,” said Wurk Founder & CEO Keegan Peterson. “We are humbled to be part of Mindful’s market expansion efforts and support the amazing brand they have built for the cannabis industry. Working with them is a testament to the power of our HR technology platform.”
