

TRANCLOUD™

PAYMENTS SIMPLIFIED

**VIRTUALLY ALL
US PROCESSORS**

**EASY TRANSITION
TO US EMV**

**INSTANT DEVICE
COMPATIBILITY**

Engineered specifically for mobile and browser-based Point of Sale, Datacap's unique **TranCloud** hardware allows Point of Sale systems to process EMV transactions through a variety of payment processors while simultaneously driving an evolving list of EMV-enabled hardware - all via the cloud.

WHAT IS TRANCLOUD?

TranCloud is a payments hub that is constantly evolving to fit the needs of virtually any POS provider.

Simplify your payments development with a single out-of-scope integration to TranCloud. Integration will take hours, not days, and you will gain instant access to virtually all major processing platforms and an ever-evolving list of devices, without requiring on-going development.

Simple to integrate, sell, support, and install, TranCloud is the ideal payments solution for your POS.
