

iPatientCare Stays Committed to Celebrate National Health IT Week and Exhibits Active Participation

iPatientCare proudly announces its collaboration with NHIT through its participation in the upcoming 11th anniversary of National Health IT week on September 26-30, 2016

Woodbridge, NJ, August 16, 2016 — iPatientCare, a pioneer in [cloud-based ambulatory EHR](#) and Revenue Cycle Management services, announced today its participation in the 11th Annual National Health IT Week, held on September 26-30, 2016.

The 11th anniversary of the Annual National Health IT Week encourage participants to leverage the opportunity to raise awareness and help the collective cause by recognizing the value of health IT. NHIT brings thought leaders from the nation’s most renowned and progressive organizations to raise awareness week that gathers public and private key healthcare constituents dedicated to working together to elevate the necessity of advancing health through the best use of information technology for the U.S. healthcare system.

[National Health IT Week](#) supports health IT to achieve technological medical advancement, specifically electronic health records (EHRs) to improve the quality of healthcare delivery, increase patient safety, decrease medical errors, and strengthen the interaction between patients and healthcare providers.

“iPatientCare is proud to be associated with NHIT in their initiative encouraging healthcare participants to use [healthcare technology solutions](#) and improve patient health care and quality. As a healthcare IT leader, iPatientCare commits itself to have an integrated, interactive, interoperable and intelligent technology,” said Chris Miller, Sr. Application Specialist (EHR/PMS/RCM), iPatientCare.

About iPatientCare:

iPatientCare, Inc. is a privately held medical informatics company based at Woodbridge, New Jersey. The company’s unified product suite includes Electronic Health/Medical Record and integrated Practice Management/Billing System, Patient Portal/PHR, Health Information Exchange (HIE), and Mobile Point-of-Care Solutions for both Ambulatory and Acute/Sub-acute market segments. iPatientCare has been recognized as a preferred MU partner by numerous Regional Extension Centers (REC), hospitals/health systems, and professional academies.

iPatientCare EHR 2014 (2.0) has received 2014 Edition Ambulatory Complete EHR certification by ICSA Labs, an Office of the National Coordinator-Authorized Certification Body (ONC-ACB), in accordance with the applicable eligible professional certification criteria adopted by the Secretary of Health and Human Services (HHS).

Full certification details can be found at [ONC Certified Health IT Product List](#).

The ONC 2014 Edition criteria support both Stage 1 and 2 Meaningful Use measures required to qualify eligible providers and hospitals for funding under the American Recovery and Reinvestment Act (ARRA).
