ClickDimensions Named to the Inc. 5000 for Second Year Running

Leading marketing automation and email marketing solutions provider ranked no. 752 on the list, with 531% three-year sales growth

ATLANTA (August 17, 2016) – *Inc.* magazine today ranked ClickDimensions no. 752 on its 35th annual Inc. 5000, the most prestigious ranking of the nation's fastest-growing private companies. ClickDimensions also ranked 60th of 332 software companies on the 2016 list, and is the third highest ranked software company in Georgia. In order to be named on the esteemed Inc. 5000, companies must have their revenue numbers verified by a certified public accountant and have generated at least \$100,000 in revenue in 2012 and at least \$2 million in revenue in 2015.

"Being named to the Inc. 5000 for the first time was a tremendous milestone for our company and our entire team. We are now deeply honored to have been named to the Inc. 5000 for two years in a row," said John Gravely, ClickDimensions' CEO. "The ClickDimensions story is and always has been one of incredible growth, thanks to our team's commitment to building the best marketing automation solutions, and we aim to continue that trend in the future."

Founded in 2010, ClickDimensions quickly grew to become the top-rated marketing automation solution for Microsoft Dynamics CRM. The company expanded its product offerings in 2015, launching Automational, an all-in-one sales and marketing platform made specifically for small businesses.

The 2016 Inc. 5000, unveiled online at Inc.com, is the most competitive crop in the list's history. The average company on the list achieved a three-year growth of 433%. The Inc. 5000's aggregate revenue is \$200 billion, and the companies on the list collectively generated 640,000 jobs over the past three years, or about 8% of all jobs created in the entire economy during that period.

"The Inc. 5000 list stands out where it really counts," says Inc. President and Editor-In-Chief Eric Schurenberg. "It honors real achievement by a founder or a team of them. No one makes the Inc. 5000 without building something great – usually from scratch. That's one of the hardest things to do in business, as every company founder knows. But without it, free enterprise fails."
