

No more overspending
on shipping.

iDrive Logistics is a supply chain consulting company that specializes in shipping optimization and cost reduction.

Hire iDrive at no cost.

Our team analyzes your unique shipping characteristics to build high-value solutions at no out-of-pocket cost to you. We only make money when you save money.

High-Impact Solutions

Contract Optimization

The difference maker. Use our cost model analysis to renegotiate your carrier agreements.

Audit, BI and Freight Payment

Beyond payment recovery. Make your life easier with freight payment and business intelligence.

Value-Added Partnerships

Does USPS make sense for your company? Switching to USPS may qualify you for preferred rates.

Warehousing and Fulfillment

Stay lean, reduce carrier rates and focus on what you do best. Pick, pack and ship with iDrive.

LTL-TL Management

Access iDrive's expansive carrier network for more purchasing power, better rates and data-driven decisions.

And...

SHIPCADDIE

TRANSPORTATION MANAGEMENT SYSTEM | Web-based shipping platform and e-commerce API shipping solution designed for small parcel shippers.

Our "Cost Model" Approach

iDrive's unique capability to cost model your shipping traits the same way the carriers do allows iDrive to negotiate your contract based on the carriers' own cost formulations. This approach is 100% unique to iDrive and is proven to outperform industry-standard approaches, such as benchmarking, both in terms of savings and its positive impact on carrier relationships.

Philosophy

Nothing supersedes the ultimate goal of iDrive's solutions—enhancing your customers' satisfaction with your brand. Our executive team has more than 100 years of combined supply chain experience, and we emphasize solutions that positively impact the connection between your company's shipping practices, your costs and your customers' overall experience.
