FOR IMMEDIATE RELEASE

***Pavement* magazine ranks Top Contractors
for paving, sealcoating, striping, pavement repair and surface treatment**

Fort Atkinson, WI (August 2016) – *Pavement Maintenance & Reconstruction*™, the leading magazine serving contractors in the paving and pavement maintenance industry, has released its Top Contractors Lists of 2016.

The Top Contractors are selected by *Pavement Maintenance & Reconstruction*™ editorial staff for meeting a set of criteria including gross sales volume for 2015, breakdown of the work that generated those sales, and third-party verification of the sales total. Top Contractors were chosen in five industry segments: paving, sealcoating, striping, pavement repair and surface treatment. Crafc0 Preservation Products sponsored the sealcoating and pavement repair categories.

Pavement Editor Allan Heydorn, who oversees the annual Top Contractors project, noted, “The largest contractors see value in diversification; they are truly full-service pavement contractors. With rare exceptions, the biggest contractors in the pavement industry: 1) perform a variety of paving services for their customers, 2) work on a variety of pavements, with parking lots leading the way, and 3) attract a broad variety of clients.”

“It’s exciting to announce the Top Contractors in each specialized category,” observed Amy Schwandt, publisher of *Pavement* magazine. “Pavement maintenance contractors work hard to advance their businesses and there are a lot of balls to juggle when planning for success and growth. Each project takes a lot of thought, planning and time. Congratulations to this year’s recipients on a job well done!”

Based on annual sales volume within each segment, the *Pavement* Top Contractors lists are non-ranked alphabetical lists that require third-party verification of each company’s sales total to assure accuracy and objectivity.

More information about the Top Contractors lists is available on the [2016 Pavement Top Contractor](#) landing page or the Pavement Maintenance Channel on ForConstructionPros.com, the premier web portal for the heavy construction industry.
