

Award-winning event commerce technology,
now better than ever.

*Smoother registration, more insightful lead capture, and faster order entry;
now available with Brolly Event Solutions.*

From Feather-Weight to Heavy-Hitter

Thanks to massive upgrades to our underlying database Brolly is more flexible than ever before. Our system now can be deployed with as little as a few laptops, but as always our team and equipment are ready to scale and meet the demands of today's largest events.

20 or 2,000 Booths: Our Team Has Your Event Covered

Our team of event experts has been making sure 120+ events go off without-a-hitch every year since 1999, you can rest easy knowing that no matter the scale of your show, we have the know-how and advanced tools to keep things running smooth.

A More Valuable Lead, A More Valuable Show

For many vendors great leads can make all the difference for a successful event, and we've already revolutionized lead capture with our exclusive item level leads. Now we've made them even better, vendors can distribute targeted sales materials right to buyers' inboxes straight from the ordering system.

More Integrations For More Functionality

We've joined forces with other great event technology providers to develop customized integrations and APIs to expand our already robust platform. If your event has a technology need our team can help you find the right solution to get it covered.
