

## In A School Emergency, Communication Is Critical!

Recognizing the increased threats and safety needs facing public schools, the [Missouri School Boards Association](#) and [CrisisGo, Inc.](#) have teamed up to offer all Missouri schools a **Free**, easy-to-use mobile emergency communications technology that can make schools safer. Missouri schools can now offer their teachers, staff and parent communities the CrisisGo School Safety App with a Panic Button and emergency notifications activated at no cost for a three-year period.

### Personal Panic Button

- Press the Panic Button to set off audible alerts to school safety team members.
- Panic Alert sends a GPS location to speed emergency response.
- Voice, text and video messaging available for each Panic Button incident.
- CrisisGo platform saves all communications for training and after incident reports.

### Emergency Notifications

- Distribute District-wide and school site emergency notifications.
- Inform parents of school emergencies and closings.
- Maintain two-way communications with safety teams and parents during emergencies.
- Give your parents community access to the School Safety App at no cost.

Free for all MSBA Member School Districts.  
Sign Up Your District Before the December  
15th Registration Deadline.
