

A Halloween Song

Verse 1

Tiptoeing the line between winter and fall
Every year you see the gangs
Of filthy rabid zombies eager to maul
And vampires flossing and sharpening their fangs

Everywhere I see orange and black
October 31st a day to worry
Kids on the street trick or treating in packs
Teens bewitched telling scary stories

Chorus 1

(Halloween song) A time to listen to Thriller
(This is a Halloween song) Have dinner with a killer
(This is a Halloween song) Celebrate superstition
(This is a Halloween song) Honor the tradition

(Halloween song) This is a Halloween song
(This is a Halloween song) Meant for a Halloween Party!
And Halloween never needs a reason
To be the best party of the season!

Verse 2

Old Celts named this night
All Hallows' Eve
A frightful delight meant to thrill and excite
Dracula later renamed it Halloween

Everywhere black cats and ghosts
Bloody Mary in my mirror itching to fight
Michael, Jason, Freddie are your hosts
So please don't turn out the light

Chorus 2

(Halloween song) A time to listen to Thriller
(This is a Halloween song) Have dinner with a killer
(This is a Halloween song) Celebrate superstition
(This is a Halloween song) Honor the tradition

(Halloween song) This is a Halloween song
(This is a Halloween song) Meant for a Halloween Party!
And Halloween never needs a reason
To be the best party of the season!

Solo

Werewolves, mummies, goblins and witches in my closet
But I've got a plasma gun, so they better watch it
I said they better watch it!

Chorus 3

(Halloween song) A time to listen to Thriller
(This is a Halloween song) Have dinner with a killer
(This is a Halloween song) Celebrate superstition
(This is a Halloween song) Honor the tradition

(Halloween song) This is a Halloween song
(This is a Halloween song) Meant for a Halloween Party!
And Halloween never needs a reason
To be the best party of the season!
